Good Governance Team 2004

After 11 months of searching for answers to a fundamental question of how can we make things better for the benefit of our patients, the Good Governance Team decided that the 27th November 2004, would be a day of relaxation, to welcome the Summer season, to celebrate successes of the road travelled throughout the year, and team building for continued team work in the year. uShaka Marine World was a perfect place for this occasion. “After all the hardwork, we’ve come to a stage where we have to relax”, said Mrs Chinniah, the Chairperson of the Good Governance Committee. The function included exchange of gifts, fun ... fun...and lots of fun.

PICTURES TELLING STORIES

Mr Khwela, the Hospital Engineer, and the Father Christmas of the day, handed out Christmas gifts to all the members. A fantastic day as members shared moments of joy when exchanging gifts.
