Charles Johnson Memorial Hospital

Health Information Bulletin

Issue 1 of 2004/2005

Compiled and presented by : Facility Information Officer
(Japhet Buthelezi)

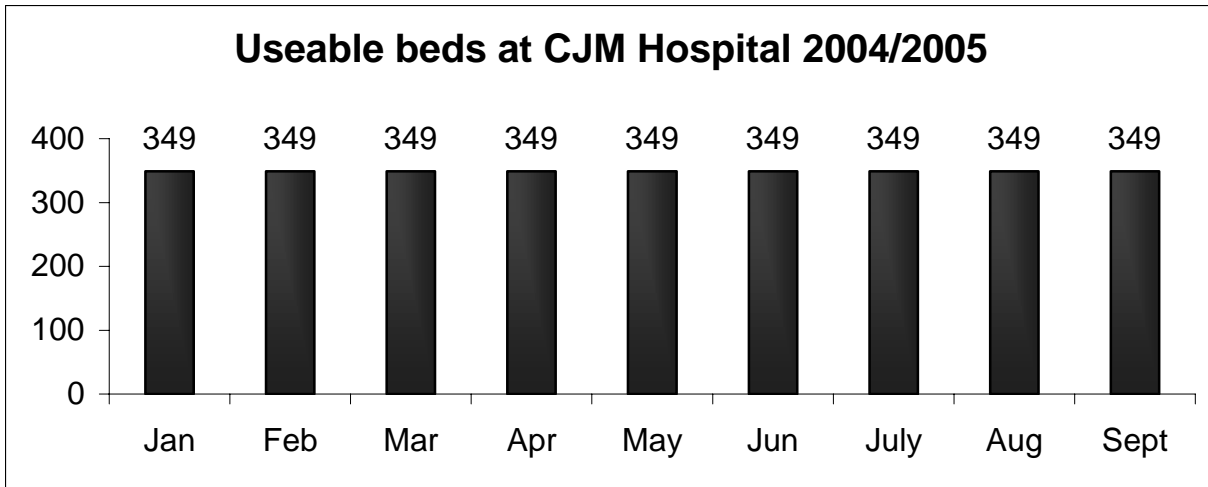

INTRODUCTION

We would like to thank different sections of the Charles Johnson Memorial Hospital who have been helpful in assisting with compiling this report. Many thanks to the Hospital staff for data collection, data capturing and data validation.

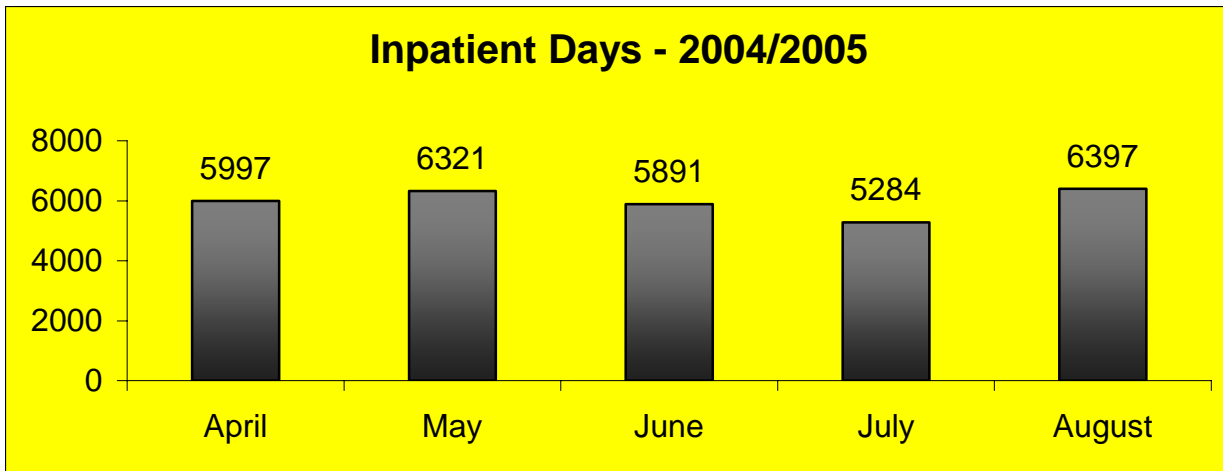

Data was collected from different wards and sections. There was a good relationship between wards sisters, sectional heads and Facility Information Officer when collecting the data for this report.

As the responsibility of quality data starts at facility level we are trying our best at Charles Johnson Memorial Hospital to Improve the quality of data.

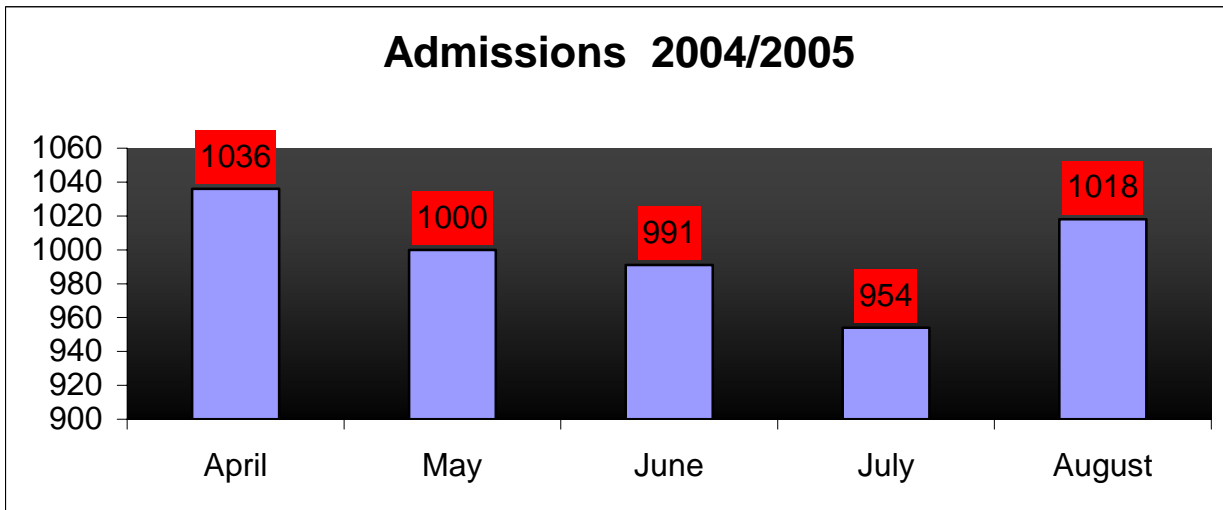

This report will be used as a monitoring tool to evaluate the improvement in the quality of data.

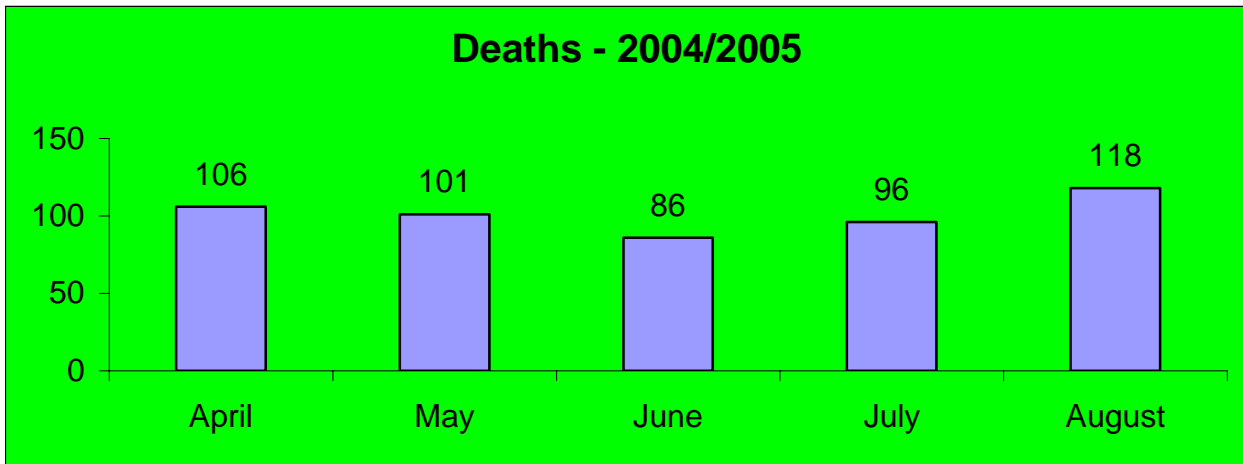

Number of beds actually available for use in the ward. (This is a physical count)

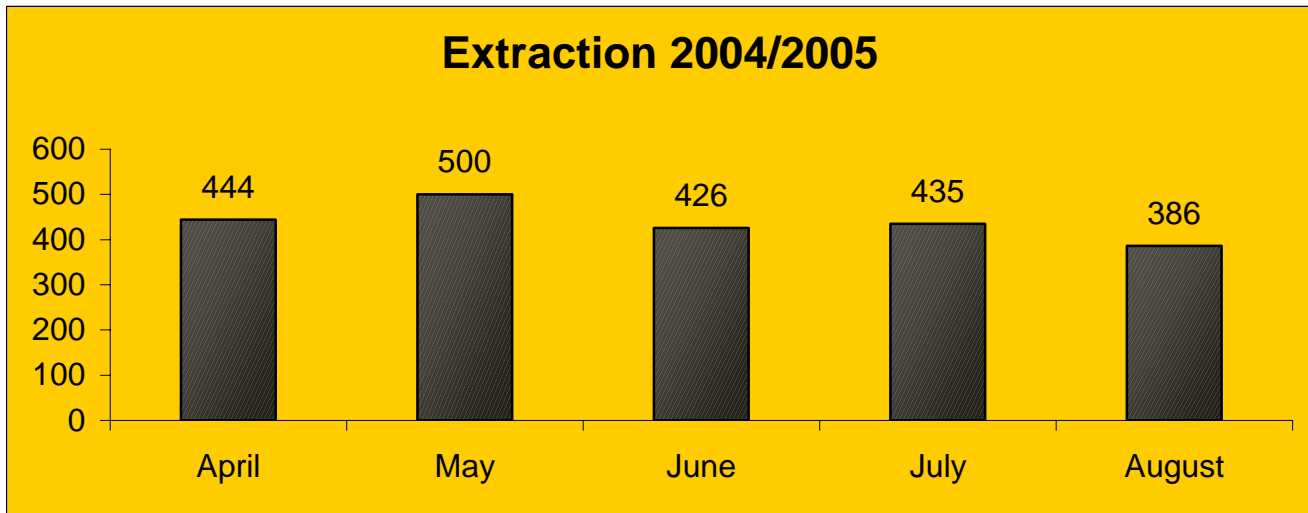

Number of beds occupied by patients who stay overnight in the ward

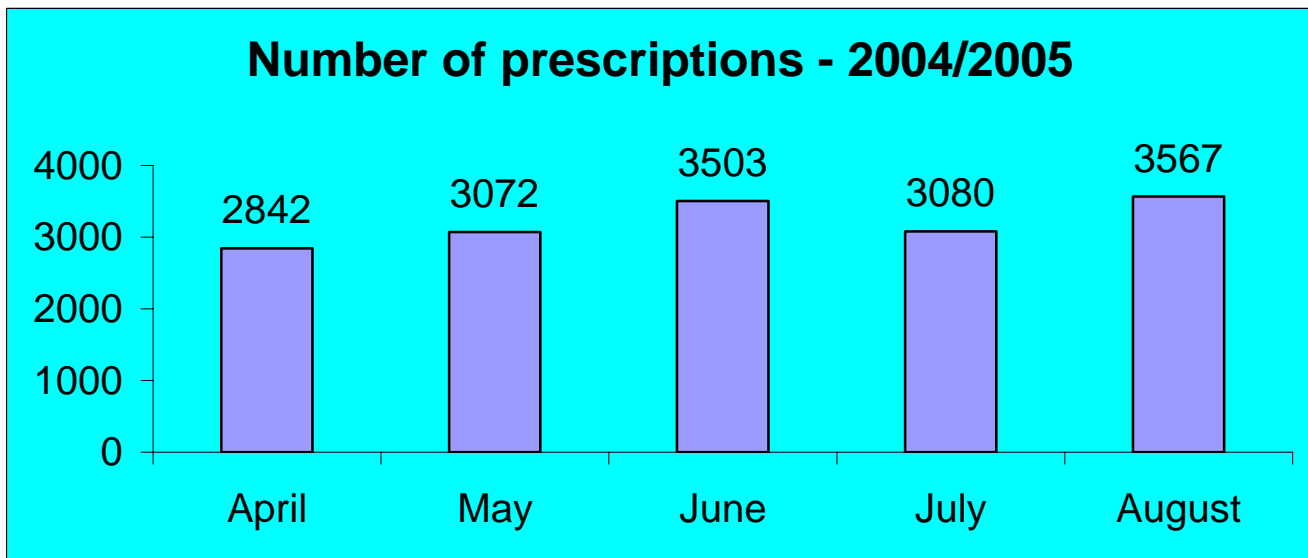

The number of new patients admissions in the ward during the reporting period

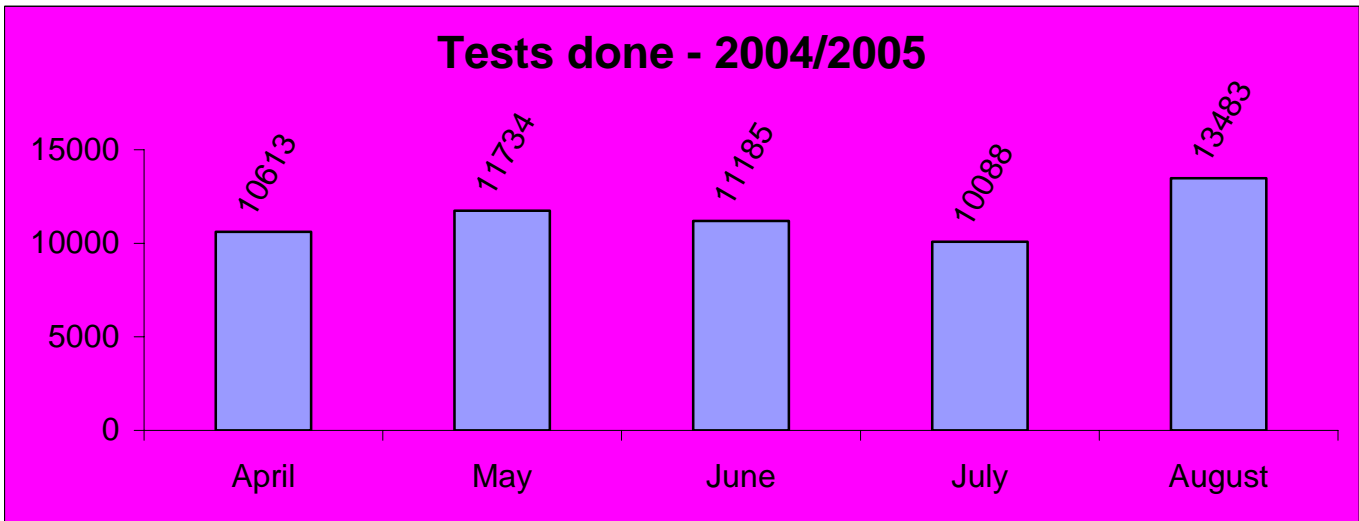

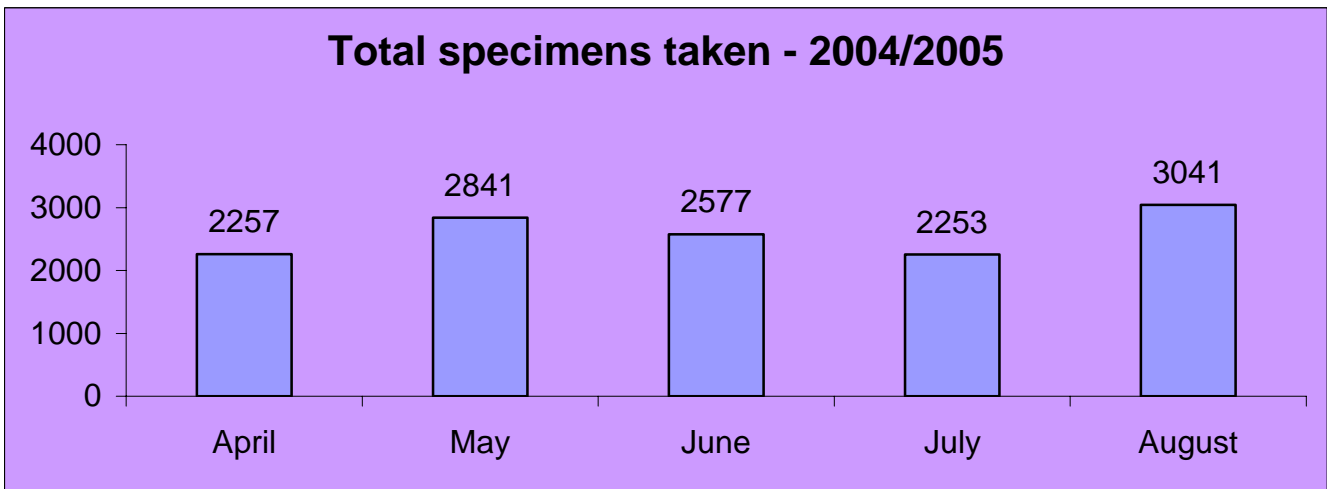

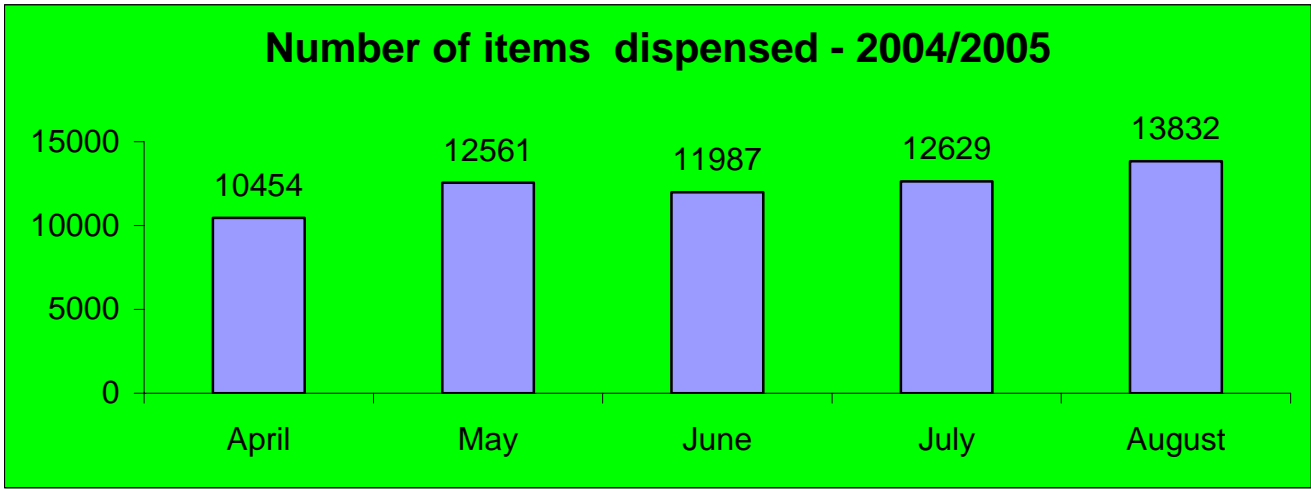

The number of patients died in the ward during a reporting period

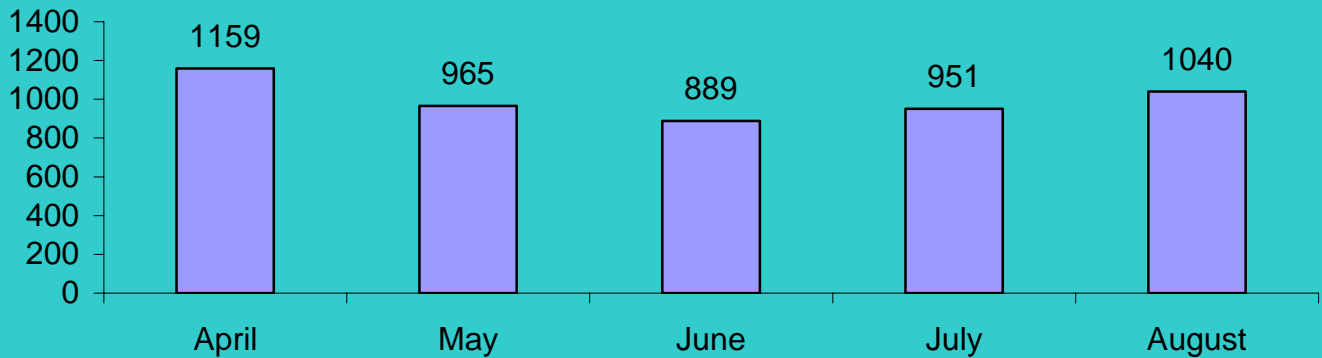

Removal of teeth

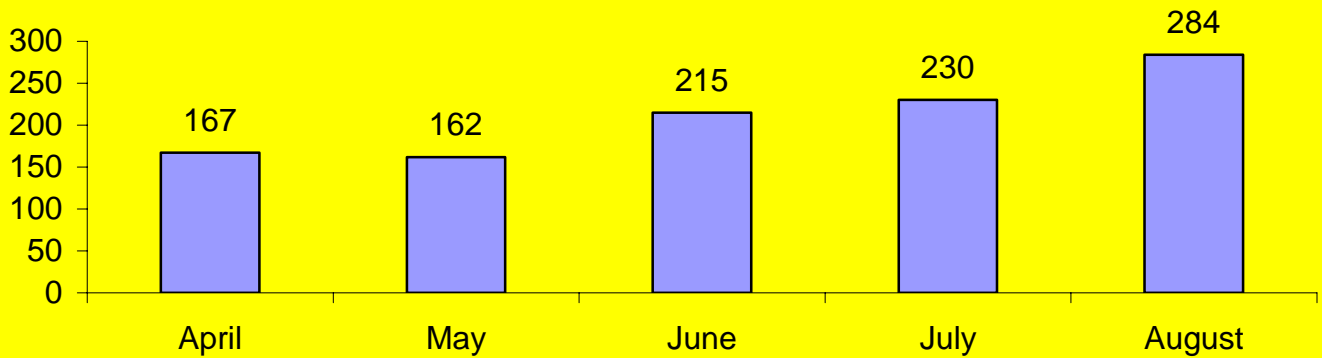

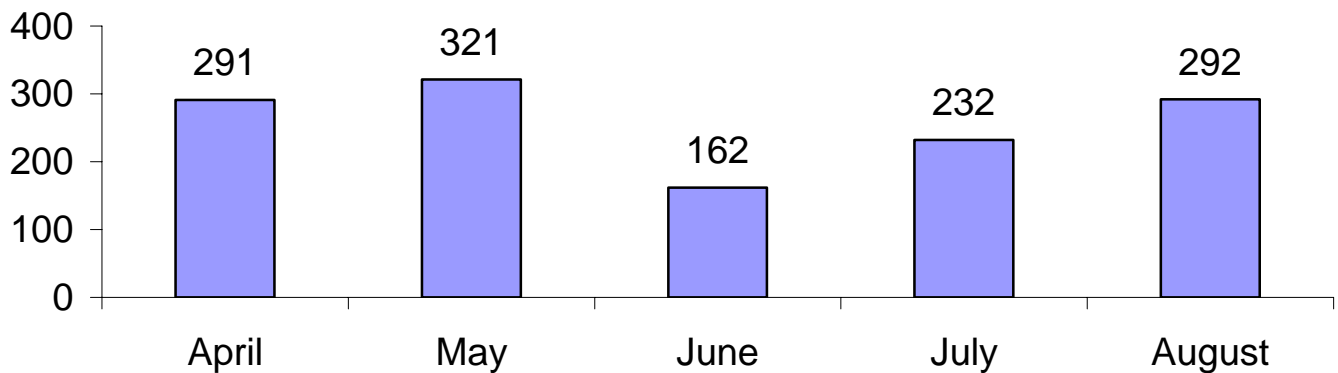

Number of X-Rays - 2004/2005

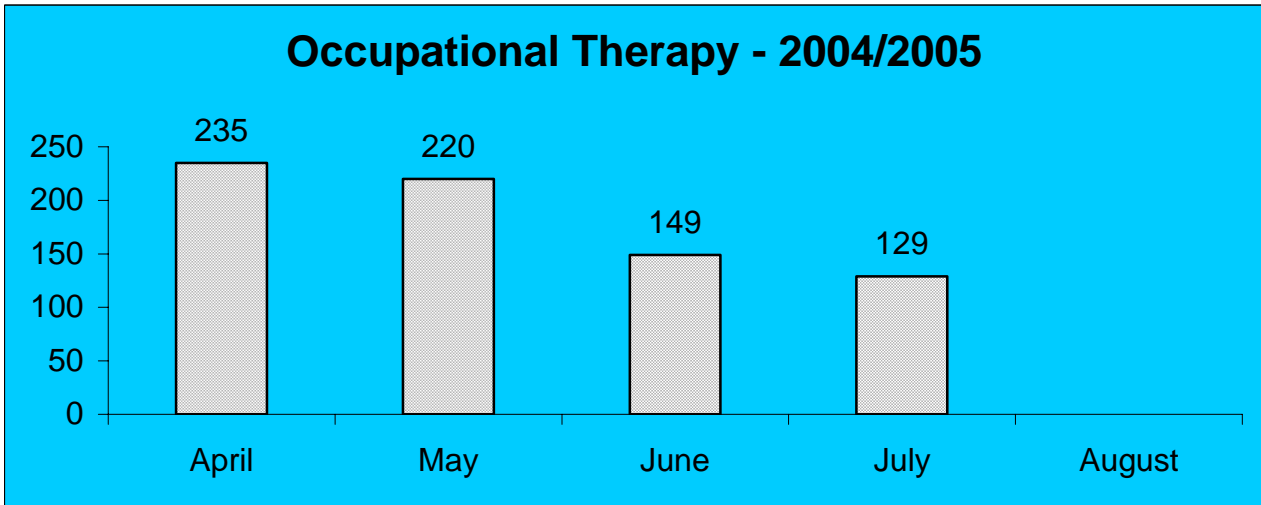

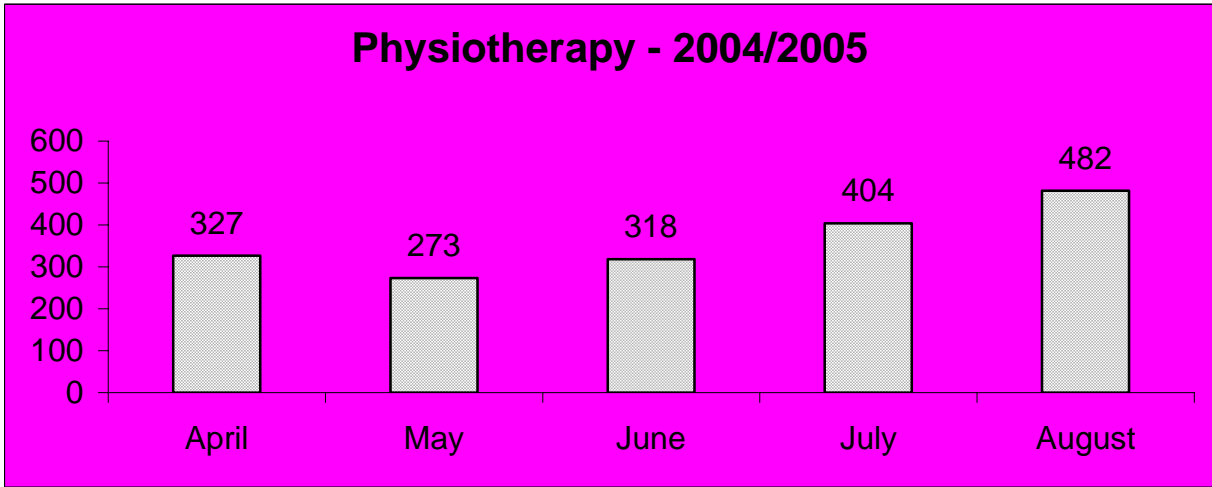

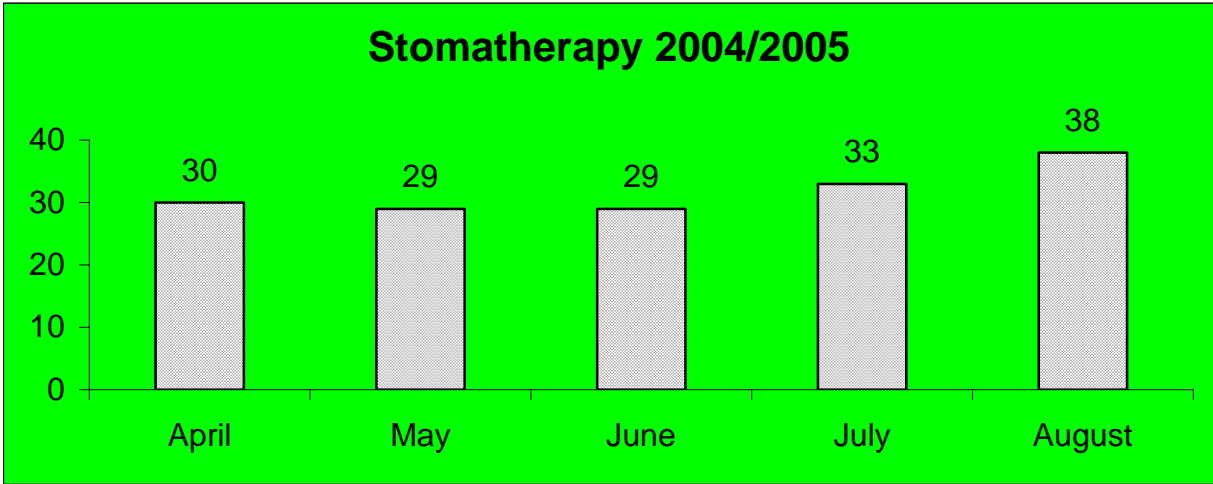

Number of Ultrasounds - 2004/2005

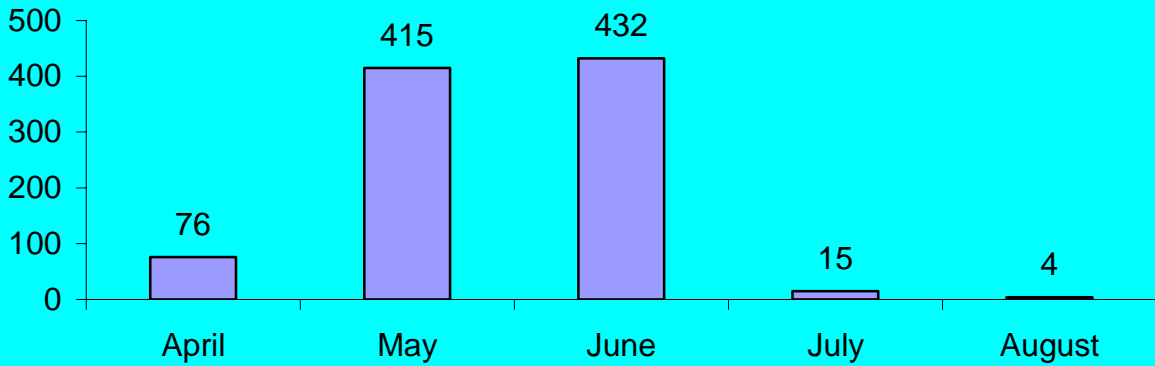

Ophthalmology - 2004/2005

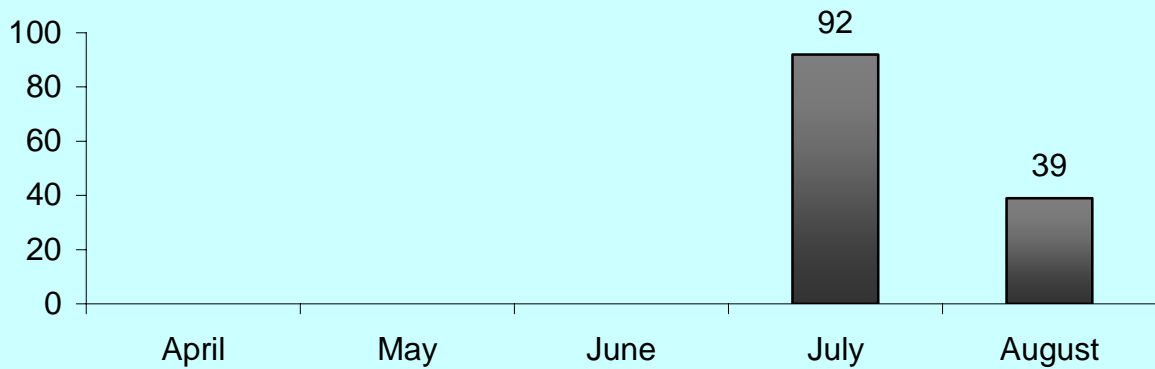

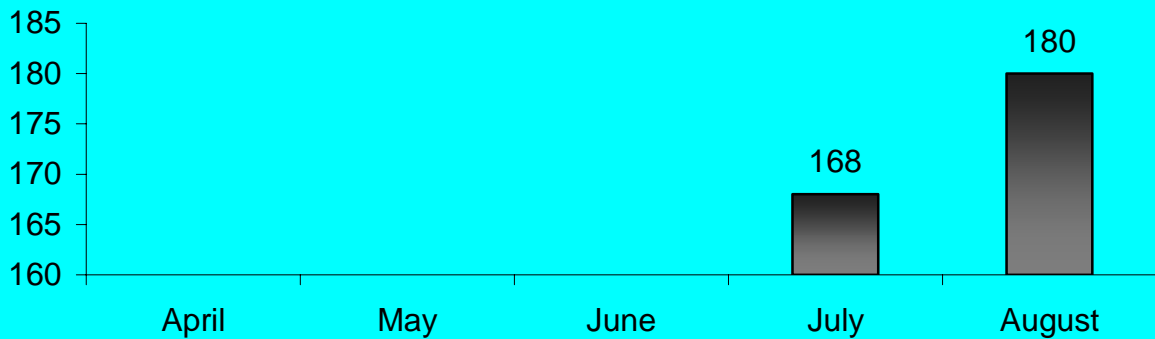

TB DOTS visit - at facility 2004/2005

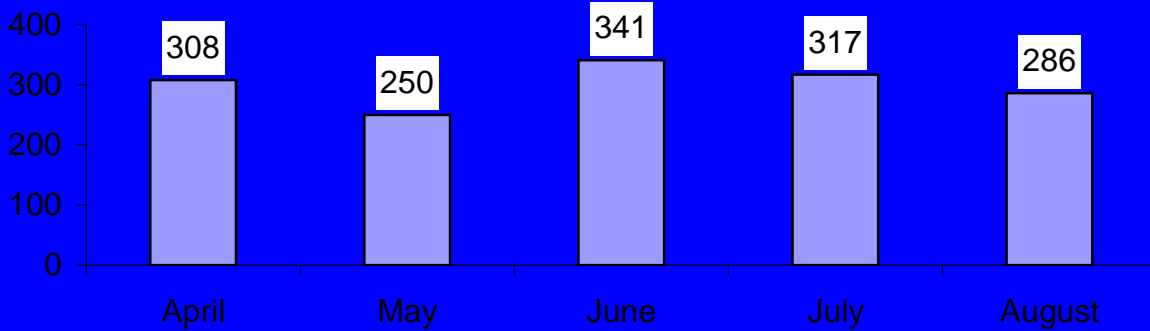

Crisis centre - 2004/2005

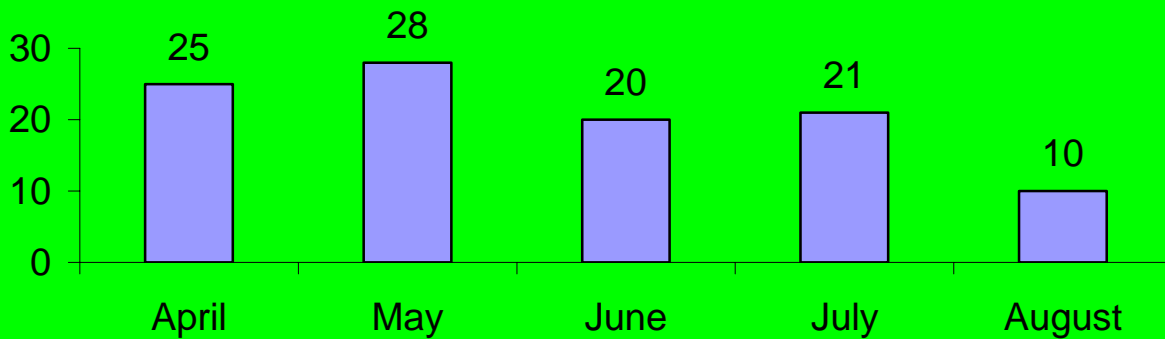

Clients seen by Social Workers - 2004/2005

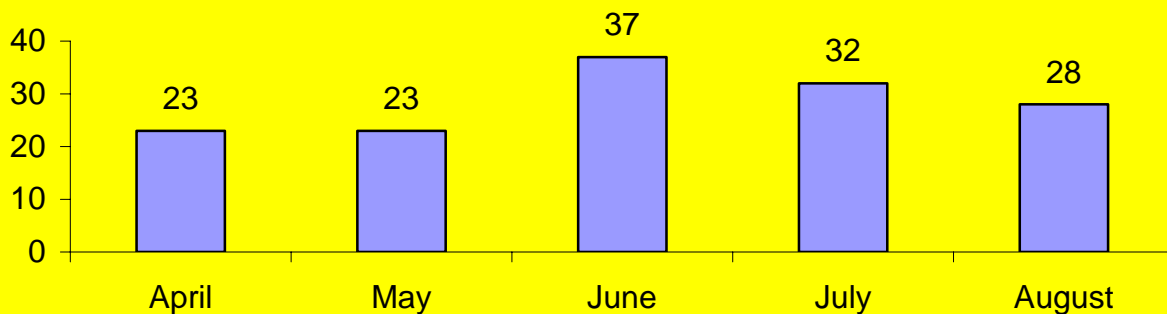

Number of women delivered - 2004/2005

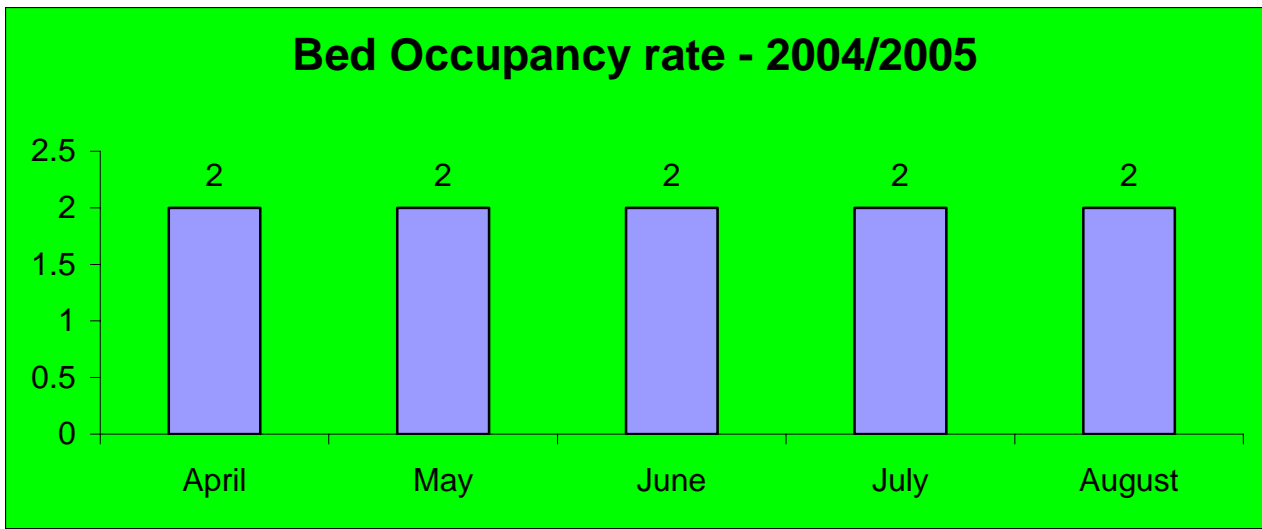

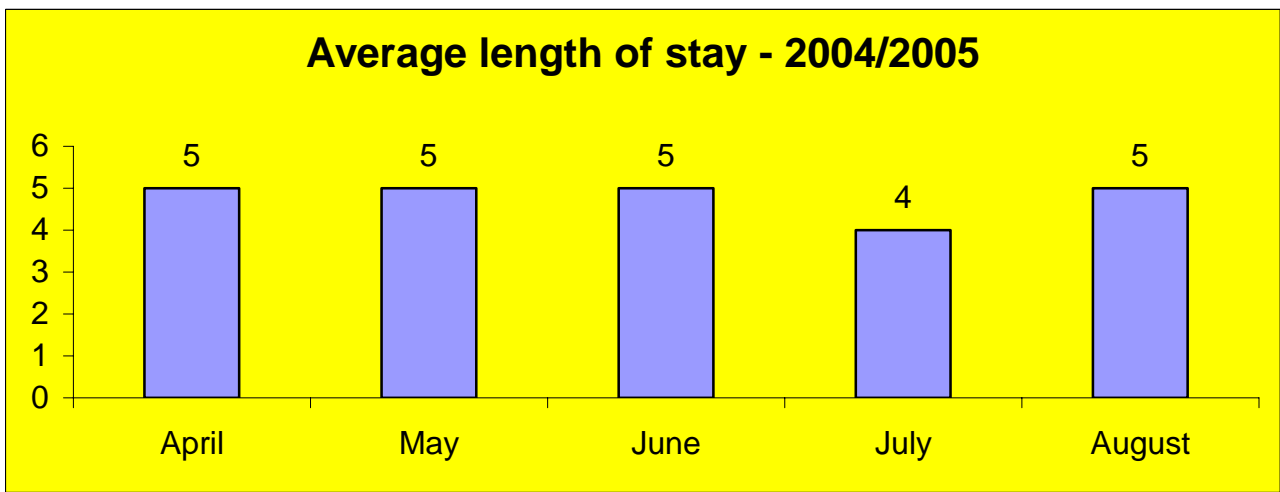

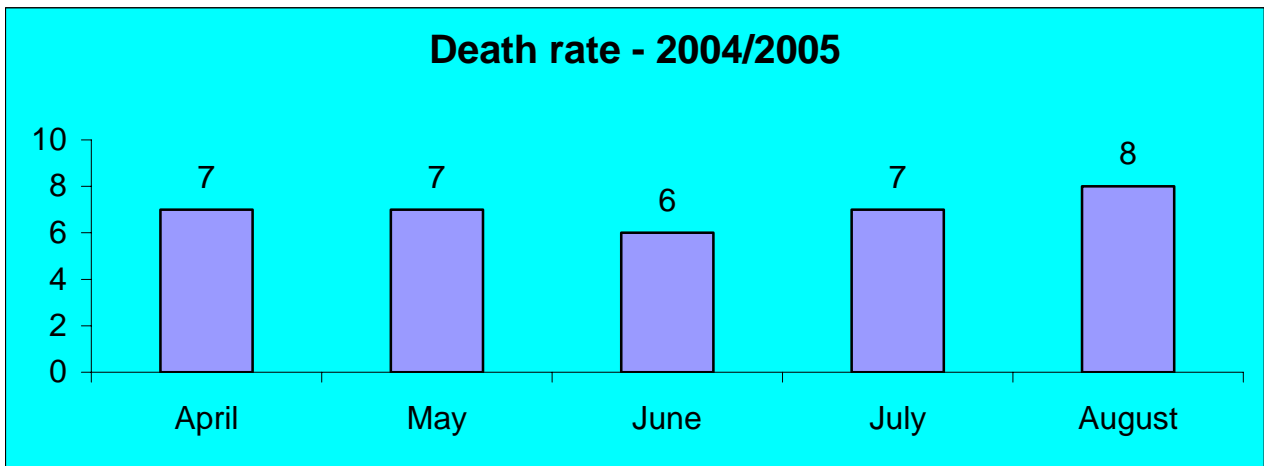

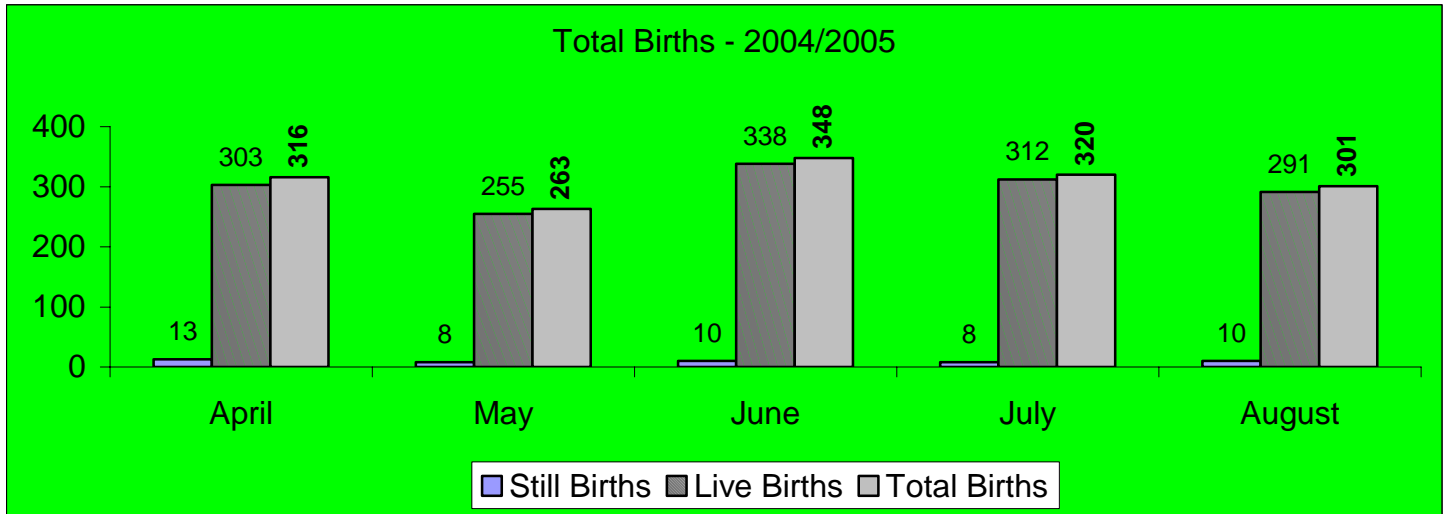

Women more than 34 years - delivered 2004/2005

Women delivered - less than 18 years - 2004/2005

Waiting times survey is conducted quarterly at each Hospital as an indicator of service delivery at any particular hospital.

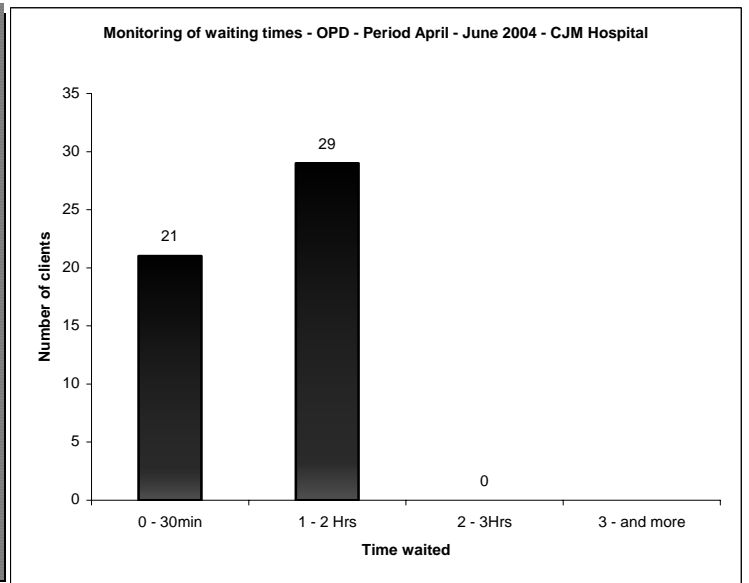

C.J.M Hospital did the waiting times survey for April – June 2004 and come out with the following results:

Waiting times survey

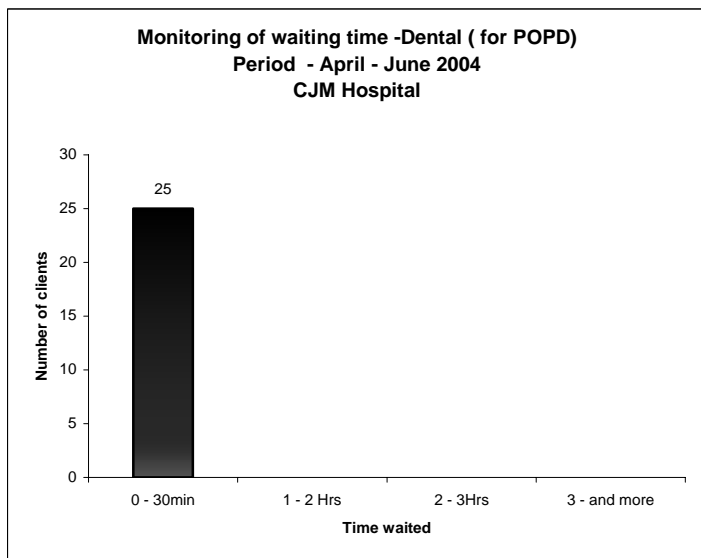

- Clients Interviewed at Pharmacy = 100
- Clients Interviewed at OPD = 50
- Clients Interviewed at Casualty = 25
- Clients Interviewed at Dental (for POPD) =25

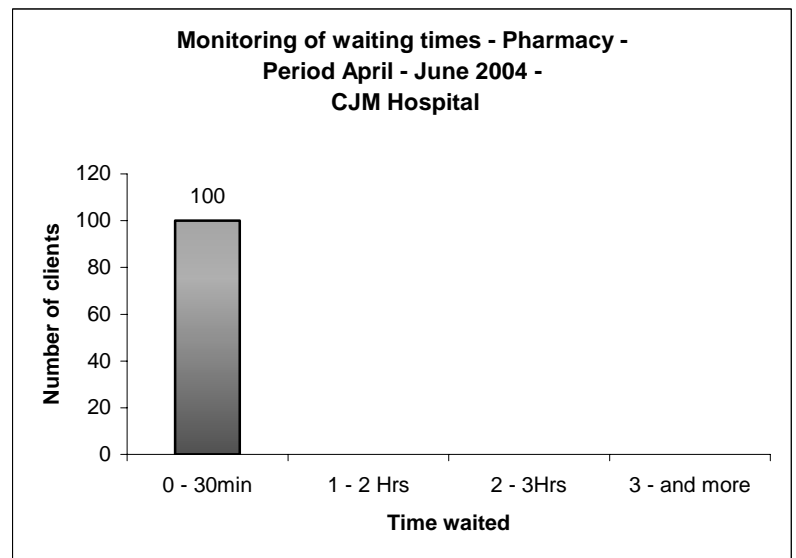

Clients Interviewed at Casualty = 25

Clients Interviewed at OPD = 50

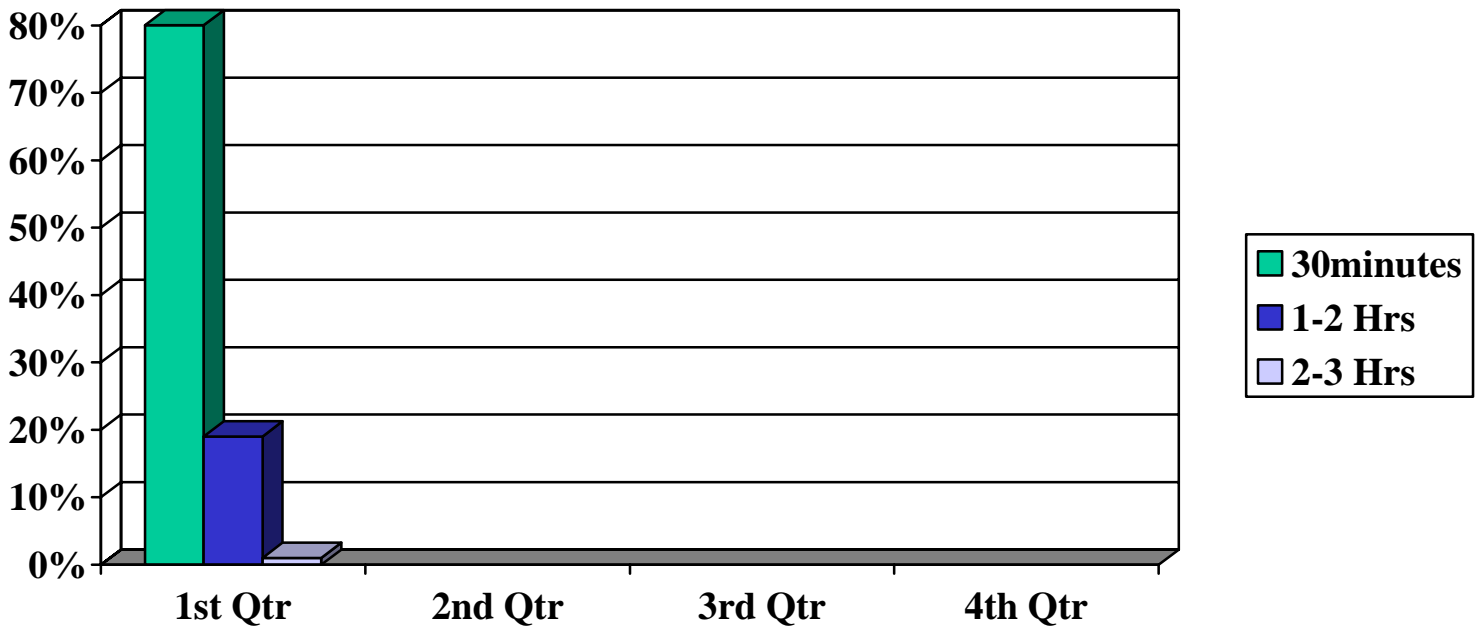

Clients Interviewed at Dental (for POPD) =25

Clients Interviewed at Pharmacy = 100

Over-all results

- Out of 100 clients interviewed at Pharmacy they all waited less than thirty minutes at dispensary waiting for their medication
- 25 clients interviewed at Dental clinic were all attended within 30 minutes
- At Casualty we interviewed 25 clients, 13 waited less than 30 minutes and 9 less than 2 hours and 3 less than three hours
- At OPD 21 clients waited less than 30 minutes and 29 waited less than 2 hrs
- 80% of our clients were attended within 30 minutes and 19% within 2 Hrs and only 1% within 3 Hrs
