MEC FOR HEALTH KZN: MS NOMAGUGU SIMELANE-ZULU VISITS C.O.S.H.

Mrs. B Dlomo CEO with Ms. Nomagugu Simelane-Zulu, MEC for KZN Health as they are headed to the COVID-19 designated facilities within the hospital.

On the 01 August 2020, The MEC for Health K.Z.N.: Ms. Nomagugu Simelane-Zulu made a point to visit multiple health care providers within the province and Church of Scotland hospital was fortunate to be one of those facilities to be visited.

The purpose of the visit by the ministry executive counsel is to ensure that all health care service provider meet the demand of the declared national disaster by the President of South Africa which the country faces. All health facilities are therefore required by the law to meet the necessary measures to ensure that the COVID-19 is contained and the virus is curbed.

There were facilities in the hospital which were identified by the management of the hospital which will serve that purpose and the visit of the MEC was to ensure that those are realized. Areas where deemed fit to make necessary changes were discussed with the CEO and management of the hospital. Support on how to address certain issues was the main focus by the MEC to the CEO.

Acting District Director Mrs PC Mbatha making use of IPC measures of hand sanitizing in the COVID-19 facilities

The MEC vigilantly making her own assessment of the facilities identified by hospital management to ensure that it meets the standards set out.

ORIENTATION & INDUCTION FOR E.P.W.P. 07—09 SEPTEMBER 2020

EPWP participants during the end of their orientation and induction posed with their facilitator

Due to the increasing demand of human resource in health sector it was seen fit by the Department of Public Works together with Independent Development Trust (IDT) to assist the Department of Health through Extended Public Works Programme.

Church of Scotland is delighted to have received 20 participants and more have been allocated to the clinics, which will be assisting in the health establishments to address COVID-19 measures put in place nationally and internationally which is to do COVID-19 daily screenings, hand sanitizing, registering of all persons entering the health establishments as well as educating on COVID-19.

All personnel who will resume and perform any duties in any organisation or establishment needs to be inducted and orientated about the organisation in order to understand the organisational culture, norms and standards expected from the organization and its employees/personnel. This is one key element in ensuring that customer satisfaction is met through proper learning environment by personnel.

A lot was covered during the induction of the EPWP ranging in a variety of information which was made available to the participant who are now fully capacitated on and about the establishment. We therefore believe and have confidence in our EPWP participants in offering services to our publics as they gain experience in the health sector and serving the community in which we are situated amongst.

On the left picture we see Ms. T.M. Magubane IPC PHC training EPWP participants on the entire COVID-19 IPC measures they need to implement during their duties

Here we see Ms. T. Dube Waste Management Officer training on waste management in the health establishment which is a fundamental to properly understand waste.
