TB AWARENESS

TB Teams from all Sub-Districts & UMzinyathi Health District

On the 17th of March 2022 Church of Scotland Hospital which is located in uMsinga Local Municipality hosted a TB awareness day at Sinyameni Hall, with the aim of reminding the community about TB related issues. The aim and focus of the

event was to orientate and re-orientate the community on the importance of regular tests, screening and testing for mainly Tuberculosis, HIV/AIDS Counseling, Covid 19, Pap smear and Medical Male Circumcision as these are priority high risk of being

affected. During the event it was highlighted by HAST staff that is very important to protect ourselves against TB with taking into consideration all the safety precautions and not expose ourselves into danger of being infected with TB.

COLLESSIE CLINIC OPEN DAY

On the 29 of June 2022 Collessie Clinic hosted an open day where an estimated of +/- 200 community member came to attend the event. Amongst the invitees the event was well attended by the community key figures where the Induna, and the Clinic Committee Chairperson were present. The programme of the day was on a high note from start to finish. The event was diverse since we had different speeches from different disciplines. The Clinic Committee Chairperson welcomed all present and the Operational Manager of the clinic (Sr. N.O. Kubheka) stated the purpose of the day.

uMzinyathi Health District Oral & Hygiene Specialist Ms. L. Mahlobo was there to render NHI Services. Miss T. Mbanjwa from Lifeline encouraged the community to report the Gender Based Violence (GBV) against women & Children.

It would have not been an event if there was no entertainment from Community Health Workers (CHW's) gave educational songs.

An open day basically is an event whereby an institution gives brief information on how it operates and to also give an insight on the services which available in that particular institution. Amongst operational hours of the clinic Collessie Clinic ensures that is opens in time and closes with the last person who is inside the clinic even if it's past closing time. Services that are rendered at Collessie Clinic are: Minor ailments, Family Planning,

Gxobanyawo Community listening attentively to the speeches that were delivered on the day.

Dr. L. Mahlobo & the team rendering Oral Services at an Open Day Event.

Chronic Disease Management, Immunization, Counselling, TB Management, HIV/AIDS Management, Mental Health, Ante Natal Care, Post Natal Care, Rehabilitation, Pap Smears, Health Education, Dental Care, Maternity Services, STI Management, Nutrition, Emergency Services, Communicable Diseases,

On the same day the clinic was also launching the Men's Health Clinic where the male patients will be seen by a male nurse specifically

WORLD HAND HYGIENE DAY

On the 19th of May 2022 Church of Scotland Hospital hosted the World Hand Hygiene Day.

When a health facility's "quality and safety climate or culture" values hand hygiene and infection prevention and control (IPC), this results in both patients and health workers feeling protected and cared for.

To prioritize clean hands in health facilities, people at all levels need to believe in the importance of hand hygiene and IPC to save lives, by acting as key players in achieving the appropriate behaviors and attitudes towards it. In other words, health workers at all levels and people accessing health care facilities need to unite on ensuring clean hands.

This year's theme for World Hand Hygiene Day, 5 May 2022, is focused on recognizing that we can add to a facility's climate or culture of safety and quality through cleaning our hands but also that a strong quality and safety culture will encourage people to clean hands at the right times and with the right products.

Unite, talk and work together on hand hygiene for high quality safer care everywhere.

S.M. Ndima Infection Prevention Control Coordinator (IPC) giving education.
