LAUGHING CORNER

WHAT'S UP DOC?

A guy says "Doctor, Doctor! Help me, I keep thinking I'm getting smaller!"

Doctor replies, "Well you have to be a little patient."

WHAT'S FOR DINNER?

A concerned husband goes to see the family doctor and says, "I think my wife is deaf because she never hears me the first time I say something, In fact I often have to repeat things over and over again.

"Well," the doctor replies. " go home tonight and stand 15 feet from her and say something . If she doesn't reply, move about 5 feet closer and say it again. Keep doing this so can get an idea about the severity of her deafness."

Sure enough, the husband goes home and does exactly as instructed. He starts off 15 feet from his wife in the kitchen as she is chopping some vegetables, he says "Honey what's for dinner?"

He gets no response. He moves about 5 feet closer and ask again. No reply. He moves 5 feet closer . Still no reply. He gets fed up and moves right behind her about an inch away , and ask again, "Honey, what's for dinner?"

She replies, "For the fourth time, vegetable stew!"

CLOSER TO GOD.

A 70-year-old man went to the doctor's for physical check up. The doctor ran some tests and said to the man, "Well, everything seems to be in top condition physically, but what about mentally? How is your connection with God?"

And a man answered, "Oh me and God? We have a really tight bond, he's so good to me. Every night when I have to get to get up to go to the bathroom, he turns the light for me, and when I leave he turns it back off."

The doctor was astonished. He called the man's wife and said, "I'd like to speak to you about your husband's connection with God. He claims that every night when he needs to see the restroom, God turns on the light for him and turns it off for him again when he lives. Is that true?"

And she said, "That idiot, he's been peeing the refrigerator."
