

# ESHOWE DISTRICT HOSPITAL NEWSLETTER

July—October 2005

## ACCREDITATION

Health Service Accreditation is a certification indicating that the Health Service complies with nationally agreed standards for Health Services.

In fact, for those who don't already know, Eshowe District was the first Public Hospital to receive Accreditation Status in Uthungulu District.

Siyanakekela (We Care).

## Peace of Mind, the Ultimate Goal

Peace of mind is what all of us are working towards in everything we do. You can never have consistent peace of mind unless you follow your true purpose in life. When you have peace of mind, your threshold rises so high that problems always look like challenges or opportunities to be welcomed and enjoyed.

## Giving is Better than Receiving

It really did my heart good to know that there are still so many kind, generous and caring people left in the world, the art of giving has not yet become extinct. Try it sometimes. Give from the heart without expecting anything in return. It is indeed one of life's great joys to witness the happiness and appreciation you can create by giving.

S.A. Red Cross Mercy Services, East Coast Radio and I Talk Specialist visited Eshowe Hospital on the 12 July 2005 to give 50 blankets to our needy community. Smiles were written on their faces.

With them is Mrs ETB Mkize, the Hospital Manager and Radio Media Consultant Ms Sara Singh

## News from Human Resource Department

1. Uniform allowance increased with effect from 01 May 2005. Difference will be paid in November 2005 salary.
2. Housing allowance payments are in process, employees must meet the prescribed requirements.
3. Welcome the Human Resource Intern Miss T.M. Mkhize.
4. Various scarce skill category posts were advertised
