

## CAPRISA ACC

ADVANCED CLINICAL CARE

Addressing challenges in HIV and TB patient management

CAPRISA has developed a diverse and innovative portfolio of projects to address challenges in managing complex HIV and TB patients. The goal of the ACC programme is to strengthen capacity of the Department of Health in KwaZulu-Natal to provide quality and sustainable clinical care for patients with complicated HIV, including those failing treatment. For advice and guidance, please contact one of our dedicated helplines for expert assistance.
