TURTON CHC

67 MINUTE OF MADIBA DAY WELL SPENT

Turton CHC has done it again by celebrating International Mandela Day in style. This time with the help of agriculture we managed to plant 10 trees of different fruits within our facility the event was attended by 30 representatives from agriculture who showed us how to plant the trees, also in attendance were community representatives like our ward 19 councillor Mr Zindela, CCG's ,Umzumbe Municipality and Turton CHC staff members. We like to thank CWP staff members for digging 10 holes to plant our 10 fruit trees and department of agriculture for providing us with the fruit trees. It did not end there as Turton CHC staff members went all out to clean and donate toys and prepared a healthy meal for two local crèches which is Bathokozile crèche and Ekukhanyeni crèche. The response we received from the two crèches was amazing as the kids sang and danced for us expressing their happiness, our dental department also provided the Kids with tooth brushes and Miss S. Moyo (dental assistant) taught them on the importance of brushing their teeth twice a day and making sure their tooth brush is dry and clean before using.
