# FIRE DRILL AT MSELENI HOSPITAL

**In the scene, the nurse is displaying how to deploy the water fire extinguisher.**

## **Be vigilant. stay alive. and prevent fire!**

On August 23rd, 2023, the Umhlabuyalingana Disaster Management (firefighting services) conducted a fire drill program at Mseleni Hospital. Hospital employees from different departments attended the program in significant numbers. The significance of holding such programs was explained as they help

educate individuals about fire and ways to manage it, the aim is to minimize the chances of casualties and property damage for both the patients and the hospital staff. The speaker from the firefighting services emphasized the importance of following essential workplace practices, such as signing the register/ reporting to a supervisor, for identifying individuals

who are inside or outside the building during a disaster. The alarm system, alerts everyone to assemble at designated points in case of danger. Emergency exit, entrance, and assembly point signage are crucial for safety. Finally, the speaker urged the safety officer at Mseleni Hospital to ensure that all fire hydrants and extinguishers are annually serviced.

# HERITAGE CELEBRATION

The staff at Mseleni hospital celebrated their heritage day in a spectacular manner on September 27th. They organized a traditional wedding between two employees Pretty Nxumalo & Manqoba Mdlalose, creating unexpected excitement among the hospital staff. everyone was thrilled to participate in this joyful event. The hospital hall was beautifully transformed into a lively and captivating space, with a variety of colourful attire. Divided into 2 teams one for the bride and the other one for the groom, they sang traditional songs and presented the Zulu customs with great enthusiasm. By coming together in celebration, the hospital staff displayed their diversity and fostered a sense of unity throughout the workplace.
