Staff strengthened on Batho-pele (People first)

Batho - Pele means putting other people first before considering your own needs/yourself and identifying small but important things that can immediately improve the quality of service you provide to your customer.

Batho-pele principles were developed to serve as an acceptable policy and legislative framework regarding service delivery in the public service

Jozini CHC is committed to render a high quality of services without compromising. Treating clients with good manner, kindness and with confidentiality will be always a priority. This training is a continuity programme which is held every month. The purpose is to revitalize the staff members about customer care and to promote the health services in better way . The main aims is to improve the service delivery.

The facilitator : Ms .Z.N Mtshali (Public Relations Officer) enlightens more about customer care during the training.

Jozini Community engagement

Jozini Local High schools learners listening attentively

HRD Practitioner (Ms. N.Ndlazi) explaining to Learners about health bursaries.

Education is the key to success. Jozini local schools commemorated June 16 as the month of knowing your identity and what can makes you to prosper as young ones. Jozini Community Health Centre had a great opportunity being the part of the event. Learners were empowered on various things e.g carrier guidance , skills development and information on bursary holders.

The event was hosted by one of the local NPO called Ikusaselihle Youth Organization in partnership with Department of Social Development. HRD Practitioner (Ms.N.P Ndlazi) and District Human Resource Development Practitioner (Mr Siphephelo Mkhwanazi) motivated all
