Circular No. G 103/2016

RE: INSTITUTIONAL EMERGENCY POWER GENERATION – REVISED SPECIFICATION FOR THE REMEDIAL ACTION FOR DIESEL FUEL AND DIESEL FUEL TANKS.

In order to minimise the occurrence of emergency power generators failing to operate due to contaminated diesel fuel during times of Eskom / Municipal power failures / outages the affected institutions shall on an ANNUAL basis introduce a regime of fuel tank cleaning and in situ diesel fuel reconditioning using the revised specification when calling for Bids.

It has come to the attention of this office that institutions are failing to adequately care for the diesel fuel that is stored on site in bulk tanks and generator day tanks holding 200 litres or more for use by the emergency power generators.

It is also noted that the Institutions are utilising service providers that are sub-contracting the work in most instances to entities that do not have the correct equipment that adequately comply with the specification.

This office has revised the specification for the remedial action for diesel fuel and diesel fuel tanks which shall become effective as of the date of signature by the Director – Maintenance and Engineering

The institutions shall henceforth issue the bids in accordance with Supply Chain Management practices and upon receipt of bids shall call for a Technical Evaluation Committee meeting that shall consist of technical staff from the office of Infrastructure Development who shall in turn scrutinise the bid documentation for compliance with the requirements of the specification. This office shall reserve the right to visit the premises of service providers to satisfy itself that the terms of the specification are being met.

All costs for the above-mentioned service must be claimed against the institutional maintenance budget.

Failure to adhere to this annual procedure could destroy the generator motor due to water and dirt entering the motor from the fuel tanks. The current average cost to replace generators is in the region of R 600 000.00 inclusive. The institutions shall be held accountable for any losses incurred.

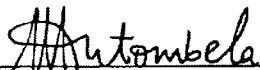

The specification is also located on the Intranet home page under the heading: Head Office Components - Infrastructure Development - Circulars.

Please pay special attention to the following circular **G57/2015: ZNB 5625/2015-H**: The supply and delivery of petrol, automotive fuel, illuminating paraffin, heavy/low furnace oil and polar oil for various institutions:

Contract period: 28 April 2015 – 27 April 2018 (3 years)

Fighting Disease, Fighting Poverty, Giving Hope

Institutions are requested to place their orders directly with Enviroshore Trade and Logistics (Pty) Ltd.
If delivery does not take place as specified in Section I (Pricing Schedule), non-delivery must be reported to SCM: Contract Management in writing.
