SECTION E: THE NATIONAL INDUSTRIAL PARTICIPATION PROGRAMME (SBD 5)

INTRODUCTION

The National Industrial Participation (NIP) Programme, which is applicable to all government procurement contracts that have an imported content, became effective on the 1 September 1996. The NIP policy and guidelines were fully endorsed by Cabinet on 30 April 1997. In terms of the Cabinet decision, all state and parastatal purchases / lease contracts (for goods, works and services) entered into after this date, are subject to the NIP requirements. NIP is obligatory and therefore must be complied with. The Industrial Participation Secretariat (IPS) of the Department of Trade and Industry (DTI) is charged with the responsibility of administering the programme.

1 PILLARS OF THE PROGRAMME

- 1.1 The NIP obligation is benchmarked on the imported content of the contract. Any contract having an imported content equal to or exceeding US\$ 10 million or other currency equivalent to US\$ 10 million will have a NIP obligation. This threshold of US\$ 10 million can be reached as follows:
- (a) Any single contract with imported content exceeding US\$10 million.
or
 - (b) Multiple contracts for the same goods, works or services each with imported content exceeding US\$3 million awarded to one seller over a 2 year period which in total exceeds US\$10 million.
or
 - (c) A contract with a renewable option clause, where should the option be exercised the total value of the imported content will exceed US\$10 million.
or
 - (d) Multiple suppliers of the same goods, works or services under the same contract, where the value of the imported content of each allocation is equal to or exceeds US\$ 3 million worth of goods, works or services to the same government institution, which in total over a two (2) year period exceeds US\$10 million.
- 1.2 The NIP obligation applicable to suppliers in respect of sub-paragraphs 1.1 (a) to 1.1 (c) above will amount to 30 % of the imported content whilst suppliers in respect of paragraph 1.1 (d) shall incur 30% of the total NIP obligation on a pro-rata basis.
- 1.3 A period of seven years has been identified as the time frame within which to discharge the obligation.

2 REQUIREMENTS OF THE DEPARTMENT OF TRADE AND INDUSTRY

- 2.1 In order to ensure effective implementation of the programme, successful tenderers (contractors) are required to, immediately after the award of a contract that is in excess of R10 million (ten million Rands), submit details of such a contract to the DTI for reporting purposes.
- 2.2 The purpose for reporting details of contracts in excess of the amount of R10 million (ten million Rands) is to cater for multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as provided for in paragraphs 1.1.(b) to 1.1. (d) above.

3 TENDER SUBMISSION AND CONTRACT REPORTING REQUIREMENTS OF TENDERERS AND SUCCESSFUL TENDERERS (CONTRACTORS)

Tenderers are required to sign and submit this Standard Tendering Document (SBD 5) together with the Tender on the closing date and time.

3.2 In order to accommodate multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as indicated in sub- paragraphs 1.1 (b) to 1.1 (d) above and to enable the DTI in determining the NIP obligation, successful Tenderers (contractors) are required, immediately after being officially notified about any successful Tender with a value in excess of R10 million (ten million Rands), to contact and furnish the DTI with the following information:

- Tender / contract number.
- Description of the goods, works or services.
- Date on which the contract was accepted.
- Name, address and contact details of the government institution.
- Value of the contract.

Mr. Malapane may be contacted on telephone (012) 394 1401, facsimile (012) 394 2401 or e-mail at Elias@thedti.gov.za for further details about the programme.

4 PROCESS TO SATISFY THE NIP OBLIGATION

4.1 Once the successful Tenderer (contractor) has made contact with and furnished the DTI with the information required, the following steps will be followed:

- a. the contractor and the DTI will determine the NIP obligation;
- b. the contractor and the DTI will sign the NIP obligation agreement;
- c. the contractor will submit a performance guarantee to the DTI;
- d. the contractor will submit a business concept for consideration and approval by the DTI;
- e. upon approval of the business concept by the DTI, the contractor will submit detailed business plans outlining the business concepts;

2	Style: Female blouse short sleeve with dummy turn up cuffs
3	The top section of the garment must provide comfortable space over the upper chest section. HOW TO MEASURE

MEASURING FOR DRESS SIZE

1. Measure your bust. To do this, wrap tape around your back and over the fullest part of your bust. Exhale when taking this measurement.
2. Measure your waist. To do this, wrap tape around the smallest part of your waist, below your ribs and above your navel.
3. Measure your hips. To do this, wrap tape around the fullest part of your hips, ensuring that tape touches your hipbone on both sides of the top of your leg, but not your buttocks.
4. Compare measurements to relevant size chart to find your size. **Tip:** if your measurements fall between two sizes, it is always a good idea to go for the larger size.

2. Measure your waist. To do this, wrap tape around the smallest part of your waist, below your ribs and above your navel.

MEASURING FOR TROUSER SIZE

1. Use a standard, upstretched tape measure.
2. Use a pair of pants that fit you well.
3. Lay pants flat on the floor to simplify the measuring process. Pants should not be too worn and should not have any irregularities such as creases or folds, as this may affect the accuracy of your measurements.
4. Measure the waist of your pants. To do this, smooth the pants out without stretching, and measure flat across the back waistband from one corner to the other with your measuring tape.
5. Double the measurements obtained from measuring the waistband. This will give you the actual waist size.
6. Next, you will need to measure the hips of your pants. To do this, measure horizontally across your pants, at the base of the zipper.
7. Once you've measured this, double the number to get the entire measurement.

2. Measure your waist. To do this, wrap tape around the smallest part of your waist, below your ribs and above your navel.
3. Measure your hips. To do this, wrap tape around the fullest part of your hips, ensuring that tape touches your hipbone on both sides of the top of your leg, but not your buttocks.
4. Measure your shoulders. To do this, stand with your shoulders relaxed and your back straight. Locate your shoulder points, which are points marked by your acromion bones. Position the tape straight and horizontally from one shoulder point to the other and take these measurements.
5. Lastly, measure your sleeve length. To do this, slightly bend elbow, then measure the distance from the bone at the base of the back of the neck to the end of the shoulder and down the arm, going around the elbow and ending at the prominent bone on the wrist.

HOW TO MEASURE

- Remove bulky clothing.
 - Always measure using an upstretched measuring tape.
 - Keep tape at the same level around your body.
 - **Overbust:** measure around your back and over the fullest part of your bust.
 - **Underbust:** measure around your back and directly under your bust.
 - **Panty:** measure across the widest part of your hips.
1. You must first be wearing a bra.
 2. Ensure that you are standing up straight and that your arms are to your sides.
 3. The first measurement will be from the middle of the throat down to the nipple.
 4. The above measurement from middle of the throat down to nipple must be between 21-26cm. If measurement exceeds this, tighten the straps of the bra that you are wearing to ensure that your breasts are in the right place to be measured correctly. This is very important to ensure that said measurements are accurate.
 5. See below diagram for final instructions.

1. Measure around the body directly under the bust while wearing a bra.

Find the corresponding measurement in column A.

2. Measure around the fullest part of the bust, while wearing a bra.
Find the corresponding measurement in line with the determined under-bust size.
This gives you the cup size
