

GENERAL NOTES

A. General notes apply to entire electrical drawing set. Drawing notes apply to associated drawings. Plan key notes apply where

C. "Supply" shall mean to supply and deliver to project site, ready for unloading, unpacking, assembly, installation and similar operation.

"Install" shall mean operations at project site, including unloading,

temporary storing, unpacking, assembling, erecting, placing,

listed drawings, verify critical areas with field Project Manager.
Electrical systems indicated on drawings are diagrammatic and

additional work, including necessary circuitry, shall be provided to make systems complete and in safe working order.Co-ordinate work

Indicated circuit runs are diagrammatic. Size and location pull boxes

per SANS 10142 and coordinate with other disciplines. building

G. Upon job completion, provide As-Built drawings accurately depicting

H. Installation to comply with OHS act, SANS 10142 and other relevant

J. All test certificates to be issued to the Engineer before any

K. Certificate of compliance to be issued to the Engineer after

commissioning can be authorised by the Engineer.

commissioning but before handover for use.

No commissioning to take place unless authorised by the Engineer.

conditions shall determine actual conduit runs.

anchoring, working to dimension, finishing, protecting, cleaning, and similar operation. "Provide" shall mean to supply and install, complete

Refer to architectural, electrical, and mechanical plans, elevations, and details for locations of ceiling elements (light fittings, diffusers, etc.) and wall mounted devices. if location for item is not shown on above

B. Do not scale or dimension from these drawings.

and ready for intended use.

with other trades.

final construction.

SANS codes.
