D OCTOR GOING AN EXTRA MILE

Untunjambili Hospital had hired a very good charismatic doctor (Dr. N.E. Ninela) to patients with her golden heart. She started working as from January 2021 till date. The love for patients has been noted by her colleagues and patients.

Her good positive attitude towards patients was highlighted more when she used her vehicle, spending lot of petrol of 276 km from Untunjambili Hospital to deep rural area of Mandeni and back to the hospital.

There was an elderly male in his late 60s, He was a down referral from GJGMH because their wards were full.

On the day of discharge, his medication and discharge summary was mistakenly left in the ward, then Sr. Buthelezi and Doctor Ninela called his wife and made arrangement to deliver the medication to his home, because they were worried that the patient was in trouble. Fortunate enough the patient was still stable. They shared all the necessary information to his wife and son on how the medication is taken, the family was surprised of such outstanding performance and reliable contribution.

When PRO, Mrs SGW Bonongwe interviewed Dr. Ninela to share why they had to do all what they did “ I’d encourage my colleagues to do the same if they have means to do so. Medicine is not just a profession but it’s a calling”
