### MMC CAMP AT IXOPO CLINIC.....

On the 8<sup>th</sup> of July 2011, Ubhlebezwe Sub-district held an overwhelmingly successful winter holidays MMC camp at Ixopo clinic. The camp was a success in every respect. Every young man that turned out for the camp was circumcised which in essence means that prior arrangements were properly done and that, boys were prepared for the process well in advance. 53 young men were circumcised. We shall continue throwing our wait in response to the clarion call made by His Majesty, the King of amaZulu and our MEC Dr. Dlomo to circumcise young men as a means of minimizing the transmission of AR virus.
