KZN HEALTH CLAIRWOOD HOSPITAL

OPERATION CLEAN UP

Improving the quality of health services would have to start with cleanliness. This is what prompted Clairwood Hospital staff and management to embark on the operation clean up.

This event took place on the 7th May 2013. The management of the Hospital and staff took to all corners and passages of the Hospital clearing papers, boxes and removing debris .

“This was just a once off operation, after we have cleaned up all areas, we will then make sure that these areas are maintained clean at all times”, said Mr Gwala, the Hospital Chief Executive Officer.
