GENDER-BASED VIOLENCE AND FEMICIDE AWARENESS

On the 7th of March 2025, an impactful awareness event focused on Gender-based Violence (GBV) and femicide was held in Mhlungu park ward4.

Various stakeholders were present to educate and caution the community about gender based violence and the damage it has on humanity.

Departments including SAPS, Crisis Centre, GBV activists and representatives from the department of Social Development. The gathering aimed to raise awareness about the urgent need to combat GBV highlighting the importance of not only awareness campaigns however the necessity for concrete interventions and support services for survivors.

“The month of February alone , we had 6 sexual assault cases as a result of GBV and the number of victims keeps rising which is not good at all. Community and families needs to do something to combat this violence” says Ms. Makhosi Zondi from the department of Social Development.

Warrant Mvelase and GBV activist Wandile Zwane from SAPS assured the community that they will be protected and assisted in respect when they come to police station to report such cases.

Speaker and Ward counselor Mr. Nsibande committed to work with all the Departments for the benefit of the victims and community at large.

TB AWARENESS EVENTS

TB awareness events were held across various clinics which are Siphimpilo, Glenridge and Sakhimpilo Clinic.

These events are designed to increase public awareness and knowledge and to educate the community as many people lack essential information about TB including its causes, Symptoms, transmission, prevention and treatment. Awareness events provide a platform to share this vital knowledge in an accessible way.

These events are also designed to also combat misconception and stigma. TB often carries a significant social stigma, which can prevent individuals from seeking diagnosis and treatment. These events help to dispel myths, reduce fear, and foster an environment of understanding and compassion.

TB awareness events aim to involve the entire community in the fight against TB, promoting a sense of shared responsibility.

TB awareness events held at the clinics are vital for empowering individuals with knowledge with knowledge, encouraging early action, connecting people to life-saving care and ultimately , contributing to the global effort end the TB epidemic.
