# From the CEO'S office

Mrs T.T. Vilakazi- Chief Executive Officer

I wish to take this opportunity to thank all Endumeni staff for availing themselves when we started vaccination UMzinyathi health care workers. Gratitude is also extended to UMzinyathi District Health management including all CEO's and their management teams for all 5 facilities under UMzinyathi Health district for team work, full participation and dedication to make a vaccination success.

Endumeni Communities also grabbed this opportunity with both hands and are still excited about vaccination. SAPS cluster and local (Dundee SAPS) also played the very important role in ensuring safety of vaccines and our staff as well especially outreach teams.

The office further request all stakeholders including hospital boards, clinic committees, municipalities to continue working with our institution to ensure that Endumeni residents receive the quality care they deserve.

Lastly the institution also wishes to thank Provincial DOH for human resources employed and allocated to our institution.

# Vaccination site

Dundee hospital started their vaccination on the 15th of March 2021 to achieve a herd immunity . Endumeni Sub-district was chosen to vaccinate the whole of Umzinyathi Health Workers. The first batch of Health care workers were strictly patient facing and working in the Covid-19 wards. Sequencing was done according to priority areas.

In total Endumeni sub-district has vaccinated 95% of staff, with 4% to be vaccinated due to personal reasons. After the Phase1 which was health care workers , Dundee hospital started the Phase2b which is the vaccination of 60 years and above. The Phase in approach is used to roll out Vaccination as guided by Department of Health.

# Nurses day

Dundee hospital commemorated the International Nurse's day on the 12 May 2021.

All nurse's in Kwazulu-Natal lit up their lamps and candles and said their nurses pledge at 12h00.

The day started with guard of honor which was led by Bishop T.N. Xaba to the venue.

Nursing Manger( Mrs. N.T. Mkhize) led the nurses pledge followed by a motivational speech to the nurses.

She further unpack the whole pledge emphasizing the utmost respect for human life. The day was also in remembrance of the Health Care Workers who passed away due to Covid-19 virus including nurses.

## Seconds Save Lives – Clean your hands

**Dundee Hospital joins WHO's global hand hygiene campaign to improve patient safety.**

**Dundee Hospital Infection Prevention and Control team** are marking World Hand Hygiene Day (5 May) this year by reminding staff, patients and visitors about the importance of clean hands.

The World Health Organization's annual **SAVE LIVES: Clean Your Hands** campaign is a global drive to improve hand hygiene in health care, celebrated every year on 5 May with participation from around the world.

In the context of the COVID-19 pandemic, good hand hygiene practices are tremendously important to prevent the risk of transmission, as part of a comprehensive package of public health and infection control measures. Effective hand hygiene also prevents any infection acquired in health care, the spread of antimicrobial resistance and other emerging health threats.

Thus, celebrating World Hand Hygiene Day on 5 May is more important than ever, to help sustain the promotion of this basic but critical action.

The theme this year is **to achieve effective hand hygiene action at the point of care.**

**Dundee Hospital Infection Prevention and Control Co-ordinator (Mrs. N Makhaye) says:** “Thorough hand hygiene is one of the easiest ways to reduce health-care associated infections. We are calling on every member of staff to redouble their efforts **to achieve effective hand hygiene at the point of care.**”

“The point of care is where the patient, the health care worker and treatment come together. To prevent transmission of infectious microorganisms hand hygiene should be performed when needed (at 5 specific moments) and using the right technique.”

Everyone has a role to play so we are urging staff, patients, careers and visitors to help tackle infection by washing their hands and making use of the hand rub that is widely available throughout our facilities.”

# FLU CLINIC

On the 16th of June 2021 Dundee hospital opened its door to the new multi functional flu clinic. The clinic main function is to ensure that all clients are screened for Covid-19 before any interaction with other clients.

The clinic has an area for testing clients presenting with symptoms and contacts, open on Monday to Friday. For weekends & Public holidays, screening and testing is done in casualty dedicated consulting rooms.

# MEC visit

Dundee Hospital vaccination site was visited by the KZN Health MEC.

Social Development Ms Nelisiwe Vilakazi on the 2nd of June 2021.

The main aim of the visit was to check the vaccination site and Flu clinic.

The MEC went to the Operation Sukuma Sakhe program which was held in Ward2, to engage with the community.

# COMPLIMENTS

Continued from Page 1

## Vaccine roll-out gathers momentum

The programme has been widely praised by residents over 60 years old, and the Courier received the following comments:

**Ben David:** Today, my wife and I received our vaccine shots at Dundee Provincial Hospital. I must commend the health workers at the facility. At every table, we were treated with patience and kindness. We were there at 8.15am and out by 9.30am. Since March 2020, we have been reading about the courage and commitment of health workers. Today we saw the reality of the conditions under which they work. Hats off to all of them. We don't see the fear under their demeanour. They just go on serving and helping others. Thank you to all of you at Dundee Provincial Hospital. May our Lord keep you safe and always hold you in the palm of His hand.

**Peru Kali:** My wife and I received our vaccination at Dundee Hospital and wish to compliment the hospital staff for such excellent service. There was no standing in queues and no waiting; everything was done in an orderly manner. The staff showed respect and kindness. It was a great pleasure to be there.

**Waldo Thöle:** Thank you, Dundee Provincial Hospital - keep your services like that all the time. Just had my first Pfizer vaccination jab - the efficiency and organisation at Dundee Hospital was outstanding. Kudos to the staff doing the vaccinations, who were very friendly, helpful and efficient.

**Geetha:** I must compliment the matron and staff who are responsible for rolling

out the Covid vaccines at Dundee Hospital. Took my vaccine with no fuss or bother yesterday. They were super efficient and helpful in guiding people through the different procedures. Very kind and friendly staff answered all our questions and we were done in no time at all. The staff also informed us that they will be rolling out vaccines between 8am and 4pm this Saturday and Sunday for those who cannot make it on weekdays.

**Ranee Naidoo:** I would like to express my deep sense of gratitude to the matron, nursing staff and the entire administrative staff of Dundee Hospital for their

professional and extremely efficient, incredibly organised handling of the Covid-19 vaccination process. I, like so many other older people, went there nervous and daunted by the fear of the unknown. Thank you all for being so kind, friendly, helpful and reassuring, which took away a great deal of my apprehension.

The entire process was easy, quick and painless. You demonstrated your total commitment to caring for us older people. Thank you for being a ray of hope during this unprecedented time in our lives.

You healthcare workers are our heroes! We would not be able to get through this time without you! You deserve our respect, encouragement and praise for doing what you do. It is my fervent prayer that more older people ignore fake news on social media and go get their first dose of the Pfizer vaccine. Dundee Hospital's vaccination process is strongly driven by high standards and protocols.

6 Health workers showed respect and kindness to all  
**Peru Kalli**

Dear Sir/Ms,

We are from Roadside in the Vrede District, Free State. We have just travelled to Dundee to have our vaccinations.

We need to compliment the staff, from the security to the final post vaccination station, on their professionalism, helpfulness, friendliness and the cleanliness of their environment.

You can be truly proud of your team at the Dundee Municipal Hospital Vaccination Centre.

May they go from strength to strength and be blessed daily.

Kind regards,

Marthie de Jager

← northernnatalnews.co.za ...

The vaccination roll out programme against the Covid-19 virus is continuing apace at various venues in Endumeni. The Health Department has embarked on an extensive campaign to ensure all those over 60 receive the Pfizer jab.

Nurses and officials have been congratulated on the smooth running of the programme.

Waldo Thole said he and his wife, Jenny, had gone to the Dundee Hospital for the vaccination. "Kudos to the staff doing the vaccination who were very friendly and helpful and efficient."

Others who contacted the Courier echoed the same sentiments saying "going there was a pleasure". "They put our fears to rest and there was a positive atmosphere all round," said one woman who called the Courier.

To all Endumeni Sub-district staff members Thank you for your dedication and professionalism.

From Dundee Hospital Management
