Open day at Rorkesdrift

Dental awareness

01

FROM THE CEO'S OFFICE

Mrs. T.T. Vilakazi – Chief Executive Officer

Vooma weekend aimed at improving vaccination uptake by all adults. Vaccinating at least 70 percent of adults can save a lot of lives. Preparations started by identification of areas with most unvaccinated persons. Mobilisation was done by Hospital PRO, municipality and community key figures. Schedule of the areas to be visited was shared with all relevant stakeholders. Local radio and local newspaper also assisted with dissemination of information to the communities.

Outreach teams together with roving teams played a very crucial role in increasing access to vaccination. Faith based organisations were also involved in mobilisation, Attracting youth 18-34 years remains a challenge but demand acceleration strategies are being implemented. Special recognition is given to two teams who worked during our first Vooma weekend and produced very good results.

ELANDSKRAAL CLINIC OPEN DAY

Elandskraal Clinic held its open day on the September 2021 aiming to combat Gender based violence and to break the silence. The clinical nurse Practitioners introduced the Prep pills that prevent the HIV infection. Pre-exposure Prophylaxis or Prep that is a one daily medication to prevent the development of HIV infection. It is for people who doesn't live with HIV but have higher chances of developing the condition. Prep helps to lower the chances of developing HIV by protecting you and your partner from contracting the virus.

They were encouraging women to breastfeed their babies because it is healthy. Breast milk helps to keep baby healthy and it protects against a number of diseases. It also protects against allergies, sickness and obesity. They urged every women to check their pap smear repeatedly to prevent cancer.

HOW SAPS CAN ASSIST YOU?

SAPS were addressing the community to report everything that is happening behind the scenes in order to prevent the gender based violence. Its time to break the silence. Community must work together with the SAPS. We can stop Gender based violence by setting up a neighborhood watch or a community patrol, working with the police. People can report the violence to the police without showing themselves, they can be anonymous and the polices officials, can keep their names confidential. Ask victims to sign the occurrence book at the police station; take a victims statements in private and not in the presence of the abuser or the public.

WHAT THE GENERAL PUBLIC CAN DO?

You can break the silence of Violence by assisting the victims with empathy and care; inform victims of their rights and opinions. You can offer practical support, such as accompanying the person to the police

The MC was presenting the open day event

RORKESDRIFT CLINIC OPEN DAY

On the 28th of July an open day event was held at Rorkesdrift clinic with all the Covid-19 regulations of level 3 observed. All the attendants wore masks and were screened and sanitized at the entrance by CHW who were allocated for that duty. The event was opened which was conducted by Mrs. Mdunge (General orderly). As the theme was AYFS, the purpose was to target the youth around our catchment area and markets the services that are offered at the clinic specifically for the youth. They were talking about the AYFS package, Miss Zulu informed all those that attended that Rorkesdrift clinic offers AYFS which includes SRS, HIV counselling and testing, pregnancy support, immunization, nutrition and screening for TB,DM, mental health and substance abuse,

sexual and reproductive health, Miss Z.R. Mtshali gave lesson and demonstration on types of contraceptive methods, and sexually transmitted infection (STI's). Miss B.P Shoba did male condom demonstration and Mrs. H Hlatshwayo did female condom demonstration. Teenage pregnancy, Miss N.N Nyandeni did awareness on dangers of teenage and the negative impact it has on the young person's body and mind as well as the effects it has on the future, HIV prevention and treatment, Miss N. Gabela talked about the PrEP and PEP services that are available at the clinic of which the youth can access everyday by coming to the clinic and test for HIV if they test negative but at risk of acquiring HIV to take PrEP and if they test positive start ARV's. Safety and

security, There was a representative from SAPS Sergeant Dumakude who gave awareness on GBV, drug abuse and discouraged the "Looting activities" that were recently taking place. MMC, Mr.A.S Mwelase encouraged the male youth to come to the clinic for MMC as this service is offered by our NHI doctor who comes once a week. Screening, there was a screening area allocated for Covid 19, TB, HIV, HPT and DM. Unfortunately the young people were not keen to screen and test during the event probably due to stigma attached to these conditions. Only 5 people were screened and tested for HTS and TB.

The nurses were holding an open day event at Rorkesdrift clinic

The Rorkesdrift staff were at the Rorkesdrift clinic

NEW MOBILE VAN

Dundee Hospital received a faster and more effective state of the art Mobile Van.

The brand new mobile van will assist in improving the quality of services offered to the citizens. The Mobile Van will add to the existing mobile vans to ensure that more mobile points are covered.

The new ambulance will top up and in most cases attend to points where mobile vans visits. The van is equipped with kitchen equipment that will help Dundee staff to use at the points , spacious consulting space with medical equipment .

THE NEW KITCHEN MATERIALS

VACCINATION DRIVE AT TAXI RANK

Dundee outreach teams also opened vaccination point at the Taxi ranks. The main aim of visiting the taxi ranks was to bring the service to the taxi drivers and taxi users . Dundee hospital is implementing various initiatives including door-to door, workplace Vaccination and visiting of crowded areas . The process to get vaccinated was done in three steps: *REGISTER DETAILS WITH YOUR IDENTITY CARD, RECEIVE THE VACCINE AND WAIT FOR 10 MINUTES TO SEE IF ARE THERE ANY INITIAL SIDE EFFECTS.*

If there are any side effects management is offered on site by clinicians/ vaccinators. Both vaccines were available to the community.

Endumeni residents coming for shopping & other activities in town got an opportunity to vaccinate & killed two birds with one stone.

INDIVIDUAL VACCINATING AT THE MOBILE AT THE RANK

"I AM VACCINATING BECAUSE I WANT TO PROTECT MY FAMILY, MY COLLEAGUES AND PEOPLE THAT HAVE SURROUNDED ME", SAID ENDUMENI MUNICIPALITY WORKER.

DENTAL AWARENESS

September is National Oral Health Month, Dundee Hospital then decided to promote Oral day on the September 2021 . Dental care and Fluoridation, this campaign is created to ensure that people of all ages have access to the most effective, affordable and equitable way to protect their teeth from decay.

People are urged to change their toothbrushes every three months of use and it is suggested that you change your toothbrush after contracting a flue.

If you are unable to change the toothbrush you can disinfectant by soaking it for 4 hours with Jik/ Mom miracles or Handy Andy. Avoid mixing the toothbrushes in the cup in the bathroom.

Cut down on how often you have sugary foods and drinks. Visit your dentist regularly, as often as they recommend . Limit your coffee intake.
