FORT NAPIER HOSPITAL HCT OUTREACH PROGRAM

On 18th of April 2013, Fort Napier Hospital HCT Team conducted an HCT outreach program where they visited Leather From Hart Company. The company is located around Edendale location employing approximately 200 staff. During an HCT program eighty one (81) clients were seen on the day. The program was very successful - even though the rain disrupted the day for a while but we did not give up as clients were coming for their interested tests. The HCT Team really appreciated the enthusiasm shown by staff at Leather Hart as they came in numbers to get tested. The HCT team will visit the company again as we have formed a good working relationship.

Below are pictures of the program

Sugar testing done by Mrs. Govender
