WORLD AIDS DAY

On 1 December 2016 Fort Napier Hospital staff and mental health care users commemorated World Aids Day. Mrs. N.T Nxaba (C.E.O) opened the event and reminded the audience about the importance of testing their HIV status. She also highlighted on HIV/ AIDS statistics and mentioned that even though there have been great improvements, but the battle with the pandemic has not yet been won.

The event was directed by mental health care users as most activities were offered by mental health care users. There were various activities at this event. Role plays showing how HIV /AIDS is spread in our communities. Ward one mental health care user did a poem regarding HIV/AIDS. Ward 9B and Ward 9C entertained the crowd with a iScathamiya. Ward 8 performed a musical item. Management and staff was able to see how much information our mental health care users have regarding HIV/AIDS. We salute our MDT for their commitment to education about HIV/AIDS .
