NURSING MANAGEMENT AND STAFF MOVING FORWARD WITH BREAST FEEDING AT ANC WARD

A winning goal for life is giving your baby natural milk that it deserves. This was the message passed on to women in different wards and departments at GJ Crookes Hospital by Nursing staff as they celebrated Breastfeeding Week on the 05th of August 2014. The mothers that already had

babies were happy to hear that even if you are HIV positive you can still breast feed. Amongst people who make successful breastfeeding stories are: - three mothers who had been breastfeeding their three month old children for three months now, one of the children has been drinking Breast milk through a tube due to a condition of his brain and he has improved ever since

SR CHETTY AND MATRON MLONDO HANDING OVER A BREAST FEEDING HAMPER TO THE LUCKY MOM AT MATERNITY WARD

We also had a first Born for the day to receive breast feeding from his mother. Another mother had also delivered on the same day and had also breastfed her son. These special mothers received gift

packs on this day thanks to Sr. J Naicker and her team. Promotion of breast milk to babies was welcomed by all mothers and pregnant women awaiting their deliveries.

NURSING STAFF SINGING BREAST-FEEDING PROMOTIONAL SONGS
