ITSHELEJUBA HOSPITAL AIDS/STOP VIOLENCE AGAINST WOMEN & CHILD AWARENESS.

Home base carers marching against Women

Mrs. M.V. Zulu delivering her speech

In commemorating world AIDS day and Stop violence against women and children the hospital staff together with the public involved themselves to unite and join together to success to fight HIV and AIDS. This was to inspire action to prevent infections, to provide care and support for affected. Public and staff members were encouraged to take care of their lives by using condoms always when they involved themselves in sex, and to have one partner, they were also encouraged to voluntarily visit Mpumelelo Clinic inside the hospital for blood test. Amongst people who have involved themselves in this campaign was Mrs M.V. Zulu, who's the head of the ART's clinic as well as HIV and AIDS co-coordinator, who emphasized the imperativeness of caring for one another, and she also spoke about the benefit of testing for HIV Status. Mrs E.S. Mdlalose from hospital Crisis Care Centre who impressed the public when she addressing them about the violence on women and children that are mostly done by their family members.

SPEECH BY HOSPITAL CHIEF RADIOGRAPHER.

**Ms. N.F. Msimango
(Chief Radiographer)**

The hospital Chief Radiographer Ms N.F. Msimango would like to thank all hospital staff for working in co-operation with her Department last year in 2005 hoping that they will do the same in this year. As we celebrate the year 2006 let us not forget those who have lost their loved ones, and not forget the struggle and sacrifices we had in the past year to improve quality of our people's life's. I would also like to wish all the hospital staff, the management and their families a prosperous and successful new 2006.
