MESSAGE FROM THE OFFICE OF THE CEO

'As we approach the end of the year on behalf of the Institutional Management, I would like to thank each one of you ((DOH Staff, Service providers staff, Hospital Advisory Board, the Clinic committees, Operation Sukuma Sakhe team, NHLS, EMRS) for being part of Itshelejuba family. I humbly appreciate your great work, commitment and dedication towards the progress and success of the year inspite of challenges we faced.

We had our strengths in the year which we need to capitalize on, the challenges we had, we have to rethink how we can overcome for the benefit of our clients both internal and external. Thank you for all your wonderful contributions towards the growth and success of the sub-district as we strive to put clients at the heart of everything we do.

We sincerely appreciate our clients for trusting us, their support, feedback and cooperation with us. We have come through a year that was filled with challenges and victories. It was so assuring to know that we could count on you regardless of what seemed to be challenges.

To our staff not well we wish you a speedy recovery. I would like to share condolences with those who lost families and friends during the year. I am sure 2020 will hold many challenges but I have a great trust that as in 2019 these challenges will be overcome with continued dedication and commitments. On behalf of the management I wish you a Merry Christmas and a peaceful new year filled with blessings and prosperity.

GOD BLESS YOU!!! GOD BLESS YOU!!! GOD BLESS YOU!!!

WORLD RADIOLOGY DAY—08/11/2019

RADIOGRAPHERS

- Nomusa Zitha—Chief Diagnostic Radiographer**
- Scelo Ntombela—Chief Ultrasound Radiographer**
- Thobeka Mavuso—Radiographer**
- Wandile Zungu—Comm-Serve Radiographer**

This day is celebrated on the 08 November each year, this date marks the anniversary of the discovery of X-Radiation by Wilhelm Roentgen in 1895. It promotes the role of medical imaging in modern health care. The focus was to educate the public about radiography as well as what radiographers actually do. An X-ray helps the doctor diagnose, monitor and treat many medical conditions, this includes most familiar use of X-rays, bone fractures, chest X-rays and many more, also the importance of female patients to inform the doctor/radiographers if they are pregnant or suspect that they may be pregnant.

DECORATION

THE ORGANISING TEAM

16 DAYS OF ACTIVISM AGAINST WOMEN AND CHILDREN IN CONJUNCTION WITH THE WORLD AIDS DAY—27 /11/2019

THEME: COMMUNITIES MAKING A DIFFERENCE

It is an awareness and build up event for the world aids day. On this day Itsheleju-ba Hospital Hast Team organised an activity for the employees.

Different stakeholders gave messages of support and information on how to deal with abuse and supporting the victims of abuse. Sister Z. Khumalo also empowered staff and clients on access to treatment for chronic management of HIV in order to reduce morbidity and mortality.

MR S. V. VILAKAZI
DD - ZULULAND DISTRICT

The event was held at Ncotshane sports field on 01/12/2019. The theme of the year 'Communities making a difference' brought the community of uphongo and surroundings together to say lets stand together lets conquer the war against HIV/AIDS. Leadership at different levels conveyed messages of support to all the community members that attended the event.
