Landslide victory by King Dinuzulu Hospital complex d at eThekweni Quality day Competition

A Quality Improvement Plan (QIP) is a formal, documented set of commitments that a health care organization makes to its patients/clients/residents, staff and community to improve quality through focused targets and actions.

Monitoring and measuring employee morale consistently by employee feedback; to make positive changes; boost workplace morale of staff. Meeting with employees individually and in teams to collect feedback and collaborate on improvements is also important.

Landslide victory by King Dinuzulu Hospital Complex during the eThekweni District Quality Improvement Day Celebration held on the 2nd December 2022. Out of 12 hospitals within eThekweni District, King Dinuzulu Hospital Complex won the 1ST Prizes in three major categories.

1st position: Best Performing KMC –1st position :quality improvement project(reducing surgical site infections) 1st position : patient safety day presentation..

Hast team and guest.

World AIDS Day

- World AIDS day is commemorated worldwide.
- It is an initiative by WHO
- As per health calendar December 1st is designated to be a world AIDS day
- It is aimed at creating awareness and educating our communities about the dangers of HIV and AIDS.

THEME for 2022

EQUALISE and INTERGRATE to END AIDS.

Purpose of the Day

- to create awareness about the dangers of HIV and AIDS.
- to promote healthy life style and condom use
- educate patients about seeking help early
- to decrease the disease burden on our communities and the district at large

The programme was hosted at the patient waiting area in MOPD and patient was our target audience. There were a large number of patients present together with some staff members.

The programme was directed by Mr M. Mkhize

The opening prayer was conducted by our own Mr Simphiwe Msomi

Opening and welcome done by DR Mabesa together with purpose of the day

He gave an opening and welcoming speech where he welcomed all present on behalf of senior management and re iterated on the reasons for the event and its significance on this day. To create awareness to those infected and those affected by the disease.

Music item from lay counsellors.

A musical item given by our lay counsellors which was informative and educational on the use of condoms.

Key note speaker was Dr Holloway

Key note speaker spoke about the theme for this year which is EQUALISE and INTERGRATE TO END AIDS. She also touched on the importance of testing and knowing your status and getting on treatment early if positive to prolong life and emphasized the key populations which include children and men.

Vote of thanks was done by Mr M Mkhize

Premature Day

Theme "On World Prematurity Day 2022, UNICEF is promoting the Kangaroo Mother Care method under the theme – "A Parent's embrace: a powerful therapy. Enable skin-to-skin contact from the moment of birth "

King Dinuzulu Hospital Commemorated World Prematurity Day initiatives aim to increase awareness to newly mothers, staff members and patients, this campaign is celebrated since 2009. World Prematurity Day is an opportunity to call attention to the heavy burden of death and disability and the pain and suffering that pre-term birth causes. It is also a chance to talk about solution. The multitude of events organized around the globe on World Prematurity Day remains the heart of the .effort.

Theme for 2022:" Strong People Come in Small Packages" Fight like a PREEMIE.

Disaster management drill– evacuation from, multi story building

Disaster readiness is the process we use to mitigate, prepare, respond, and recover from disasters. It's how we save lives, protect property, and make sure the day the after a disaster is better than the day before.

How do you evacuate a high rise building?

the occupants of the fire floor and the floors immediately above and below it should immediately use the exit stairs to descend to a floor level that is at least several floors below the fire floor, and await further instructions from safety officials.

What is the importance of readiness to reduce the impact of disaster?

Disaster risk reduction (DRR) protects the lives and livelihoods of communities and individuals who are most vulnerable to disasters or emergencies. Whether the crisis is caused by nature or humans (or a combination of both), DRR limits its negative impact on those who stand to lose the most

5 Steps To Emergency Preparedness For Any Disaster

Know your risks

Build a team.

Make critical information quickly accessible.

Update your alert and response procedures.

Test the plan.

Evacuation planning

Arrange your evacuation ahead of time. Don't wait until the last minute to plan your evacuation.

Plan what to take. Many families choose to have a "go bag" ready with some of these critical items.

Create a home inventory.

Gather important documents.

Trauma Day

King Dinuzulu Hospital Complex commemorated Trauma Day on the 11 November 2022, all departments were invited to participate and also to witness the coordination of activities, roles, coordination, role play. According to the (WHO), trauma is a major cause of death and disability across the world.

WHO research has shown that at least 50 percent of road deaths occurring in developing countries could have been prevented with effective interference after trauma has occurred, that is:

- immediate pre-hospital care
- adequate knowledge of handling emergency situations (involves training of personnel)
- adequate supply of pre-hospital care equipment and facilities (enough ambulances and other medical supplies).

Commemoration of World Trauma Day emphasizes the importance of saving and protecting a life during the most critical moments and preparing and applying critical measures to deal with and avoid trauma fatalities

Diabetes Day

MOPD celebrated the day

Each year 14 November is celebrated as Diabetes Awareness Day to raise awareness of the Disease.

Theme for the year 2022 was "EDUCATE TO PROTECT TOMORROW". Nurses are doing an outstanding work to diagnose, to educate and to manage the impact of the disease in our Community.

Diabetes Mellitus is a serious chronic condition and medical science has found no cure but compliance to medication and a planned Diabetic Diet can control it.

The target of screening all clients and visitors entering our clinic through entrance screening site was achieved as 238 tests were conducted and new three (4) clients were identified and diagnosed. The clients were entertained and educated through music by MOPD Nursing staff.

PROGRAMME DIRECTOR: MR ES ZIKALALA (OM)

WELCOME & PURPOSE OF THE DAY: DR T MABESA (SMVM)

Dr. Mabesa extended a warm welcome to all patients, staff and guest speakers on this important day of Diabetic Awareness.

DIABETIC MANAGEMENT: DR K NAIDOO

Dr. K Naidoo Medical Officer of the Family Medicine Team in MOPD discussed and educated the community on Diabetes i.e. Pathophysiology, Signs & Symptoms, Treatment Compliance and Diet control.

MUSIC: MOPD TEAM

MOPD Staff presented a song to all present and performed excellent encouraging everyone to be screened for Diabetes Mellitus.

NUTRITIONAL MEAL: Ms. N SINGH (DIETICIAN)

Dietetics Department displayed a table demonstrating the importance of preparing and eating a meal.

They gave an excellent talk on controlling Diabetes using specially prepared meals. The audience present was able to ask questions and the response from our speakers was excellent.

FOOT AND HEALTH CARE: SR P DLAMINI

Sr. Dlamini from Diabetes South Africa-Durban a speaker nominated by Matron Mchunu gave an excellent talk on Diabetes Mellitus. The audience participated in activities presented by Sr. Dlamini. The Family Medicine and MOPD Team acknowledge her dedication towards fighting this disease.

MOTIVATIONAL SPEECH: MOPD CLIENT

An unexpected speaker from the Community rose to the occasion to share his milestones and challenges of been diagnosed with Diabetes Mellitus. The journey is not easy and the expectations are over-whelming but compliance to all treatment is a growing success.

VOTE OF THANKS: DR T MAPHOPHE (CLINICAL MANAGER)

Dr. Maphophe gave a vote of thanks to all present especially to our Medical Manager and Nurse Manager matron Mchunu for showing great support to MOPD and to the community present.
