The MEC 4th Annual Service Excellence Awards Ceremony (MASEA), was held at the Durban ICC on the 2 June 2017.

This prestigious event seeks to recognize performance excellence in the delivery of health services to the citizens of the Province. Health employees were recognized across numerous genres that make up the health system.

Ladysmith Hospital walked away with 2 awards:

- Evette Cilliers and team received a certificate of special Recognition for their project: Occupational Rehabilitation and Reintegration of Mental Care users
- Dr A. Beharie and team were awarded with a certificate and a trophy, for third position in the category “Best Performing Paediatric Unit, Regional Hospitals”

Ladysmith Regional Hospital wishes to congratulate the recipients on their achievements. Management also wishes to thank the recipients for their dedication and commitment to service delivery and encourages all its members of staff to strive for service excellence.

NURSING ANNUAL PERFORMANCE PRESENTATIONS

On the 9th of June Ladysmith Nursing Management hosted their department annual performance report presentations.

Purpose of the function

Nursing Managers were given an opportunity to:

- ⇒ **Account for the allocated resources in comparison to the outcome performance.**
- ⇒ **Share their future services delivery improvement plan.**
- ⇒ **Upgrade talents in creativity and innovation.**
- ⇒ **Learn from one another, the good practices initiated and successfully implemented towards the improvement of Quality Patient Care.**

The function was well supported by the senior Management and relevant supporting department who were noting all the challenges experienced in nursing that were relevant for their attention and support of quality patient care. Managers highlighted their achievements and challenges encountered in the past financial year.

Amongst the highlighted achievements, the managers commented on their successes in conducting community outreach, health awareness and team building promoting events. Emphasis was given on health efficiency indicators; these were presented in graphic format.

The presence of the CEO and The Medical Managers during the presentations enriched the knowledge imparted to the Nursing Managers through their constructive criticism and positive inputs.

Awards were given at the end of the function to motivate managers who excelled in their performance and creativity in outlining their presentations.

Human milk bank launch!!!

On the 21st June 2017, Ladysmith regional Hospital held a function at R.J Community hall at Steadville. As it officially launched the human milk bank system, which commenced on the 23rd February 2017. The community came in large numbers to support the launch which was a success . Prizes were won by those who were listening attentively and refreshments we served on that day. It was a great day !!

All you need to know about it!!

Human milk bank is a system that is aimed at providing donated human milk from breastfeeding mothers to the infant that are in need of breastmilk. This donated milk, it is screened, pasteurized then banked for the need.

Who should receive donor milk?

- * Premature babies
- * Sick babies
- * Babies of sick mothers
- * Abandoned babies and orphans

Who should donate?

- * A healthy mother not at risk of getting diseases
- * Nursing mother who has plenty milk, uses no medication to boost milk
- * A mother willing to be tested of diseases
- * A mother who doesn't intake alcohol or smoke

We urge people to spread the word, to come and donate milk to help a child in need . Remember, "It starts with you!"
