## MANGUZI HOSPITAL

### GLOBAL HAND WASH

Global hand washing day is dedicated to increasing awareness and understanding about the importance of hand washing. It is designed to:

- foster and support a global and local culture of hand washing with soap.
- Shine a spot on the state of hand washing around the world.
- Raise awareness about the benefits of hand washing with soap.

On the 05th of May 2015 Manguzi Hospital took part in the international hand hygiene day. In service training to all staff and demonstrating of hand washing was done, then a relay using alcohol hand rub was conducted with different categories participating.

Staff members were reminded on when to wash hands, that is:

- Before and after a shift on duty
- Before and after aseptic procedures (dressing, injections, etc.)
- After handling bedpans and other contaminated articles (even if using gloves)

- Hands must be washed before and after wearing gloves.
- Before and after invasive procedures.
