MANGUZI HOSPITAL

NEWS

July-September 2024

MASSEGE FROM THE C.E.O

As we are at our second quarter of the year I would like to express my sincere gratitude to all staff members who have worked tirelessly in ensuring that the hospital performance improves from time to time. The hospital has done extremely well in HIV tests, we have done 7582 and exceeded our target of 6107 for the quarter. About 96% of the clients tested for HIV are initiated on ARV's which greatly boosts life expectancy of our clients. Tracer medicine availability at the pharmacy has always been maintained above 94%.

I would also like to remind our clients to follow the department of health referral system. Patients must utilise their primary health care facilities first before coming to the hospital, as these establishments are free, and are at least visited by doctors every month. Maximal use of primary health care facilities will assist the hospital in focusing on patients who are admitted in the ward, emergencies and referred clients and also decrease the long waiting time in our outpatient department.

WOMEN'S DAY CELEBRATION

ZINAKE, ZITHANDE, ZIQHENYE

In collaboration with other stakeholders, Thengane clinic under the leadership of operational manager Mr. N. A Mkhumbuzi hosted a successful women's day event which was held at Thengane hall on the 29th of August 2024. The event was aimed at empowering young women with information that will assist them in improving their health and other aspects in life. Different stakeholders including ward councillors, department of social development, department of agriculture, life line e.t.c were present in the event. The highlights of the day included screening of 45 women for cervical cancer. Such screening is important due to increased number of clients who die as a result of cervical cancer. Female clients are urged to visit their nearest health facilities for screening of cervical cancer as early detection will assist in curbing the disease.

PHARMACY MONTH

"LET'S VACCINATE" ... "ASIGOME"

September is observed as pharmacy month to raise awareness of the care and services members of the public may access from pharmacies across all communities throughout the country. This year's theme was "LET'S VACCINATE" focusing on the importance of vaccinations. Clients were educated about the importance of vaccination, new vaccination programme and effectiveness of vaccine and management of side effects.

HERITAGE CELEBRATION

Usuku lwamagugu lubungazwa ukuqhakambisa ukuhlukana nobuhle bamasiko ethu. Lolusuku oluphinde ludlale enkulu indima ukuqguqguzela ubumbano emsebenzini, lubungazwe ngomhlaka 30 September kwizikhungo ezihlukahlukene ezingaphansi kwesibhedlela sase-Manguzi.
