## SERVICE EXCELLENCE AWARDS

### STAFF MEMBERS DURING THE SERVICE EXCELLENCE AWARDS

Manguzi district hospital celebrated quality day on 26 November 2025. The event was held to appreciate and

acknowledge the hard work of healthcare workers who strive daily to improve patient care. This recognition helps to

boost staff morale and reinforces their commitment to excellence.

# Lenacapavir injection

In an effort to close the gap in HIV prevention, the Department of Health has introduced the Lenacapavir injection. This long-acting injection is administered only twice a year and is expected to significantly reduce missed PrEP doses, enabling more people to effectively protect themselves against HIV. The introduction of Lenacapavir does not replace existing HIV prevention methods such as daily oral PrEP, condom use, and behavioural interventions; rather, it complements these strategies by expanding prevention options and empowering individuals with greater choice

Lenacapavir injection

## COMPLIMENT/ISINCOMO

“Maryke, Adri and your Gijima team!

I joint Gijima primarily to see and join my daughter Annine and help where possible , but the Lord used Gijima in my life to change my heart and show me His love for all His children.

The way you and your team love people and show it is the way Jesus love people.

UNCONDITIONALLY!!!!

I want to pray

Zephaniah 3:17 over your hard work:

The Lord your God is with you, the

Mighty Warrior who saves. He will take great DELIGHT in you, in His LOVE He will not re-buke you. He will REJOICE over you in singing!!!!

Thank you thank you. The Lord changed my heart

Please let me know when is next years Gijima. Would love to join again

Keep up the good work”

Lots of love
