# QUALITY AND OPEN DAY

Manguzi staff members were overwhelmed with joy during the awarding of employees that performed exceptionally well during 2017/18 financial year. The Chief Executive Officer (Dr. S.B.Vumase) for Manguzi Hospital and his management felt it was important to say "THANK YOU" to employees who had and still working beyond their means thus contributing to the achievements of the Hospital as whole as it is one of the District Hospitals that are performing well in the District.

PHC coverage, immunization coverage, reduction of mother to child transmission of HIV and antenatal visit before 20 weeks, were amongst other indicators that the Hospital were found to be doing very well. Staff members were encouraged to put more effort in making sure that we maintain the good name of ourselves, management and the Hospital, this was the highlight of the message from the key note speaker.
