# QUALITY DAY 2022

The department of health encourages all facilities to conduct quality day as means of awarding and motivating staff members who are contributing positively in saving lives of the people and improve quality of care. On 07 December 2022 Manguzi hospital which is led by Dr S B Vumase as the chief executive officer, hosted a very successful and intriguing quality day, in his speech he applauded the staff for their contribution in ensuring that the hospital is rated number 1 in as many indicators such as viral load suppression, early booking, in the district.

Our distinguished guests, retired staff, board members and staff members are still embracing powerful message given by guest speaker (Mr SW Mkhaliphi) on "extra mile" where he encouraged everyone that in whatever they do they must go an extra mile because those people never die as they live mark in whatever they do.
