

PAEDIATRIC CONSUMABLES CHECKLIST: DISTRICT

Facility Name:	Year:	
racility ivallie.	Teal.	

To be completed monthly by operational manager and copy sent to supply chain manager.

<u>All</u> the following items are required & should be in stock. Items marked in blue are **critical** & must be in stock at all times.

Calculate required monthly stock levels (based on average monthly usage) & record in stock column. No item (except for equipment consumables) should be marked NA.

Indicate which of the below are currently in stock (as spares-not in use) in the unit. Only mark an item compliant (1) if the required stock levels are available.

	Action taken for unavailable items:													

[#] Humidifying bottles (aqua packs) provide very little humidification and pose an infection risk. Nebuliser/Christmas tree connections can be used instead to connect to oxygen tubing.
*The only items that should be marked NA are consumables for items of equipment that have not yet been acquired for the unit.
