

PAEDIATRIC CONSUMABLES CHECKLIST: REGIONAL/TERTIARY

| Facility Name: | Year: | |
|----------------|-------|--|
| racility Name. | Teal. | |

To be completed monthly by operational manager and copy sent to supply chain manager.

<u>All</u> the following items are required & should be in stock. Items marked in blue are **critical** & must be in stock at all times.

Calculate required monthly stock levels (based on average monthly usage) & record in stock column. No item (except for equipment consumables) should be marked NA.

Indicate which of the below are currently in stock (as spares-not in use) in the unit. Only mark an item compliant (1) if the required stock levels are available.

| Action taken for unavailable items: | | | | | | | | | | | | |

[#] Humidifying bottles (aqua packs) provide very little humidification and pose an infection risk. Nebuliser/Christmas tree connections can be used instead to connect to oxygen tubing *The only items that should be marked NA are consumables for items of equipment that have not yet been acquired for the unit.
