

# Posts for medical internships, community service confirmed

13 December 2017

The KwaZulu-Natal Department of Health has announced the names of 405 medical interns who have been placed at health facilities throughout the province for 2018. A further 1161 doctors have been placed in community service posts for various categories in the medical field.

This was announced by KZN Health MEC Dr Sibongiseni Dhlomo in Durban earlier today. All healthcare professionals who applied for internships and community service are urged to visit [www.kznhealth.gov.za](http://www.kznhealth.gov.za), where they will be able to see at which health facilities they have been placed.
