Mseleni Hospital got thumbs-up, again!

Dr V.G. Fredlund (Acting Hospital Manager) describing the ins and outs of Mseleni Hospital to the delegation from KwaZulu Natal Department of Health Head Office

Mseleni Hospital received a surprised visit from the members of the KwaZulu Natal Department of Health Senior Management on the 17th January 2013.

The purpose of the visit by Dr J.V. Dhlamini (District Health Services), Dr A.S. Mndaweni (General Manager: Strategic Health Programmes) and Dr J. Mthethwa (Acting General Manager: Public Health and Non-Communicable Disease) was to familiarize themselves with all the health institutions in the province of KwaZulu Natal. Interestingly, Mseleni Hospital received an absolute thumbs-up for its compliance in the Infection and Prevention Control standards! Moreover, the delegation also praised the infrastructure of the hospital.

Dr. V.G. Fredlund (Medical Manager and Acting Hospital Manager) also thanked the delegation for visiting the institution as that served as an encouragement for all the staff members to do well continuously!

Furthermore, Ms. M.P. Themba (UMkhanyakude Health District Manager) also gave a pat in the back

to Mseleni Hospital for having been identified more than twice as the only hospital in the district to comply with standards of the Infection Control. Furthermore, she applauded the entire Umkhanyakude Health District hospitals for its good performance in delivering health services to the community; evidence of such was proven when Manguzi Hospital won a Gold Award in the Premier 'Service Excellence Awards in 2012.
