SPONSORS FROM ITALY

Its true that every cloud has a silver lining .

It all started when Northdale Hospital was in the Witness Newspaper regarding the alleged shortage of supplies.

Mr. & Mrs. Soobiah of Northdale approached the Hospital CEO to find out how they could assist as they only had praises to sing about Northdale Hospital after Mrs. Soobiah's father received best care when he was admitted in this Hospital.

Mrs. Soobiah met with the Hospital CEO and she mentioned that there was a group of Italian Doctors who were willing to donate something towards the Peadiatric Services.

The CEO suggested that a Peadiatric wing at the ARV Clinic will go a long way in improving Peadiatric ARV Services, Mrs. Soobiah then informed Dr. Clara about the Proposal and this received their full support.

The meeting was held at the District Office with the District Manager , Northdale Hospital CEO, Mr. & Mrs. Soobiah, The Engineer Cardoso, Mark Green and Johanna Mayne attorney

and Mr. Pike drew up the plans right away. On the 25th August 2008 Italian Doctors flew all the way from Italy to have a meeting the Management of Northdale Hospital.

On the 30 August 2008 a meeting was held at the District Office where they were given the go-ahead from the Head of Department. On the 18 September 2008 a site meeting was held by Mr. Cardoso, Mr. and Mrs. Soobiah who met with the contractors. On the 3rd of October 2008 a meeting will be held at the Randles Estate where the tender will be awarded to the contractors. It is envisaged that this Project will be completed in February 2009.

Many Thanks to :

FROM THE CONSULTATION ROOM (Medical Manager's DESK)

It's a privilege for me to be in this column, allow me to talk about the Casualty Section and introduce their Manager Dr. Sayago.

He has a vast experience and came in as a transfer from Escourt hospital. He has worked at Itshelajuba hospital and Ekombe hospital. He is already showing a lot of energy in terms of organizing casualty and consults with those that render services in casualty. Dr. Sayago joined Northdale Hospital in June 2008. As the Head of the Section we have already had meetings to try and expedite the fillings of the J88 forms which is our medicolegal aspect that we do with the SAPS and the Justice System.

We have already had meetings to alleviate the high volume of patients that come to Casualty, other meetings were held with Eastboom, CHC Management and at all entry points of the Hospital e.g. PHC, MOPD, GOPD, MATERNITY and POPD and CASUALTY said **Dr. Zimu** (Medical Manager)

The main mission for our Unit is to improve the Medical Service, the team (Nurses, Intern Doctors and Doctors and Admin Support Staff) duties are allocated on daily basis and we prioritize emergencies (we give urgent attention to the critical patients). We also wish to increase the quality and quantity of the Medical attention, decrease the mortality in our service, reduce patients waiting time to the low index possible. We would like to increase the faith our patients have on us, Last but not least we are challenging all other Departments, when Service Excellence comes Casualty will TOP said **Dr. Sayago** (Chief Medical Officer)

Looking at Dr. Sayago on his personal side

Who is he ?

He describes himself as a family man who is dedicated to his job and family, he likes to live and work in a positive, friendly and good environment. He dislike people who lie.

What does he do after work ?

If he is not at work he spends his time with his family ,going out with friends, braaing and fishing, he also spends his time exercising at home. He would like to run the Comrades Marathon but he thinks Comrades will be too much for him.

He spends almost everyday swimming during summer.

DR. J. ZIMU MEDICAL MANAGER

NEWLY APPOINTED DR. SAYAGO WHO IS MANAGING CASUALTY DEPARTMENT

BATHO PELE WORKSHOPS : WHAT OUR STAFF THINK

As we run Batho Pele workshop every Wednesday for all our staff members. In this issue we took some time and went out to find the views from our staff whom had attended the workshop, which was held from the 11th – 13th August. These are some of the views that came from the interviewees that attended the workshop:

According to **Mrs. Hlengiwe Grace**, her suggestions about the workshop are as follows:

Usage of suggestion boxes for internal and external clients.

Questionnaire forms for staff as well as the public, about the service received and their comments and suggestions. Follow up should be done.

We as a staff should encourage each other about practicing the Batho Pele Principles we now understand what we capable of, as the institution.

Our superiors should also attend the Batho Pele workshop.

What do you think about the Batho Pele Workshop?

I have enjoyed it, and it was not boring like other workshops.

I have learned a lot, e.g. Courtesy is important to me as the face of the institution, and respect our clients. Go an extra mile to assist the patients. Provide sufficient information to the public/ patients.

When we are giving appointment date to the patients, we must also ensure that we explain the procedures.

According to **Sister M. Moodley**, the workshop had a great impact on me because I have learnt skills on how to treat our clients when they come to the hospital. Although I know I am a polite nurse but there are certain ways in which to approach the clients

She encouraged other staff to attend the workshop because every individual that attends the workshop will learn how to approach the client and this will also improve the service standards of the hospital.

Mr. Simphiwe. Duma, the pharmacy assistant. He also suggested his personal views about the workshop and he thinks, the workshop must be held once every year and, so to remind the workers what they are here for. Reminding our workers how they must provide services to our clients, and in which way they must provide the services.

I will encourage other staff to attend the workshop, because each and every staff must know what is the reason that bought them here. They must know that no matter how wrong the patient is, they must bare in their minds that the patient needs to be given full consideration.

So they have said It themselves of how the workshop will greatly and positively influence other staff to render a good and excellent service to our patients.

REACH FOR A DREAM PROJECT

This is a Project that concentrate on making sure that KIDS dreams come true and to make the children forget their illness and have a smile.

This time around REACH FOR A DREAM made a dream of the eleven year old girl (Asandile) her dream was to have new clothing and to eat a pie which she has never ate before, This is what

Asandile showing off with her new clothes

NB : the name Asandile is not the Patient's real name and her face is covered to protect her right to privacy and a right to live free without being discriminated from her community

reach for dream is all about.

My last words will be " Treasure what you have and stop complaining about little things that didn't go your way be grateful for every second you live, respect and honor it.

Asandile showing off with her new clothes

Asandile showing off with her new clothes with Northdale Hospital POPD staff member with Reach for a Dream Crew

ORIENTATION AND INDUCTION

PRESENTED BY : Mandla Goba

Our induction and orientation programme commenced on the 11th of August 2008 in Boardroom 2 at Northdale Hospital. The programme spanned over a period of 3 days. A total number of 14 staff members attended. They were briefed about the various components in our institution by the respective managers. Not all managers were able to provide briefings, due to meetings they had to attend and other unforeseen circumstances. We are grateful to all those who contributed and trust that those who did not will be able to at our next programme.

Our old and new Staff members listening to our Presenters

Our old and new Staff members listening to our Presenters

and patient. I have not met a more dedicated and spontaneous group of employees. Their ability to learn and make enquiries was exceptional as well as overwhelming. I have no doubt that they will be invaluable to our institution and it gives me great joy in knowing that a team of “winners” has joined our already winning team.

I would like to thank them for making our programme a success, I wish them everything of the best, and may their stay at our institution. Welcome to Northdale Hospital.

During the 3 days new employees were given an opportunity to learn more about various services offered in our institution. They learnt a lot and were very enthusiastic

Miss. P. Singh— Chief Physio Therapist telling our Staff members about our Physio Therapy Department

Mr. Vusi Zulu (PRO) giving a presentation on Batho Pele and Patients Care

CELEBRATING OUR WOMEN AT NORTHDALE

On the 28th August 2008, we hosted a Women Days Celebration to honor our female employees, the theme of this event was “**Women are precious**”, this event was Directed by Miss Zanele Khanyile who is an EAP Practitioner at Northdale. Amongst the notes she made she said the reason to organize this event was because, Women’s Day is celebrated all over the world during this month. This event focused more on Domestic Violence and women’s health which are most common problems faced by women in South African Communities and all over the world.

DR. LAURENS WHO OPENED WITH A PRAYER

sang a wonderful and spiritual song and a nice play which was based on Domestic Violence. Our play included an abusive husband, his wife, and their two children, on the other side we had the caring family Mr. and Mrs. Msomi and their child, an uncaring neighbor and two policemen. The play showed us that domestic violence does not only affect

MRS WEBSTER WHO WELCOMED OUR GUESTS WARMLY

Ms. K. DHVARAJ WHO IS A SOCIAL WORKER GAVE THE SPEECH ON THE HISTORY OF WOMEN

Dr Lawrence gave us a prayer and a warm welcome by Mrs. Webster who was wearing a very beautiful outfit. Our special guests were Inspector Dennis and Captain Ebrahim from the Mountain Rise Police Station, Promise Gasa and Lorain Govender from the CANSA Association.

Our guests from Mountain Rise Police Station gave us information and advices on Domestic Violence issues. Dr Hlophe (from Northdale Hospital) ,and the ladies from the CANSA Association spoke about Health Issues like breast cancer, STI’S and AIDS and encouraging women to have a pap smear. They also encouraged women to stay strong and firm.

The event was not only about talking but we also had a trio which

children and neighbors, but that neighbors can also help. It also emphasized that women should not allow their husbands to abuse them physically, emotionally, financially and spiritually because the outcome might be deadly.

Ms. Kammy. Dhvaraj who is a Social Worker at Northdale Hospital, was the writer of the play, gave a speech on **The history of women** and on **Women are precious**. Khululiwe Mkhize gave a talk on how to live positively with HIV/AIDS which was one of our best items. There was also a motivational speech by Mrs. Rene Munro (Quality Manager Northdale Hospital) who said that “women are created with a specific purpose and valuable to society,” and that “They need to hold their heads up high and be proud.” She also dedicated a song by Jordan Sparkes titled “You said I’m ugly.”

We would like to thank all those who took part in making this event a success.

Ms. Z.G. KHANYILE EAP PRACTITIONER WHO WAS A PROGRAMME DIRECTOR ON THE DAY

CELEBRATING OUR WOMEN AT NORTHDALE

DR. N. HLOPHE GIVING A SPEECH ON WOMAN'S HEALTH ISSUES

MRS. RENE' MUNRO A MOTIVATIONAL SPEAKER FOR THE DAY

Ms. PROMISE GASA FROM CANSA WHO GAVE SPEECH ON WOMEN AND CANCER.

CAREER CORNER / ABANTU NEMISEBENZI YABO

In this Issue for career corner we spoke to the Chief Security Officer Mr. G.W. Thurman.

What do you do at Northdale Hospital?

I am in-charge of the security component which has 9 in-house staff members, and 20 private securities. We are here for the protection and safe guarding property, staff, and our visitors. Our main function is to safe guard and protect. Both security components have prove themselves in numerous occasions and they are up to the challenges that are being thrown on our way. We also serve as information assistances to our patients and visitors. We resolve crime within the hospital, and are various crimes ranging from petty theft to emergence theft. To add on my profile I am the acting district security co-ordinator for Umgungundlovu District.

How long have you worked in this institution?

I started in 20th January 1997, but under government it will be my 20th year in October.

What do you love about your job?

To be quite honest I am being faced with different challenges everyday. Challenges are numerous, because at the end of the day it comes down to being in the victims shoes, because we have to reach a fair decision. Our duties are varied, we resolve conflicts, crowd control, escort duties, patrol, investigations, restraining confused psyche patients, complains.

To end it, I would like to say to all staff members of Northdale hospital that have assisted the security component, and would like to say a special thank you to all of them. There has been times when we were short staffed, there have been staff members whom have helped us in the security component.

ARV CLINIC 1ST ANNIVERSARY

On the 05 August 2008 it was the ARV clinic's 1st anniversary in their new building. The clinic was opened on the 04 October 2004. Their first initiation for adults was on the 20 November 2004 and Pediatrics later joined in January 2005. From the 5 September 2007 they moved on to a new site which was much bigger. On the 5 September 2008 the staff of the ARV clinic celebrated their 1st anniversary together with their patients, who were served with drinks and lunch, later they then had lunch with the hospital management and staff. Their statistics are now more than 4000 patients.

THEY SAVED MY LIFE

ALL THE DOCTORS COULD NOT FIND ANYTHING WRONG & WROTE ME OFF. I STARTED DEPENDING ON PAIN TABLETS.

My name is Thembeke Ngubane. Here is my story.

In April 2003, after the birth of my son, I started experiencing Pain in my right hip. I was admitted to another hospital. They did x-rays and put me in skin traction but did not cure me. I started depending on pain tablets. One Sunday morning, after moving to Durban, I awoke and was unable to move my right leg. I again went to hospital, this time having a bone scan, but they still couldn't pick any abnormalities.

“a very happy and memorable day for me –walking with crutches but experiencing very little pain. The Northdale Hospital staff saved my life! They helped me after the previous doctors had written me off. I wish to show my gratitude and thank to all in the orthopaedic department. Dr. T Naidoo brought me back to the person I am today. She played a big role in my recovery and gave me endless hope. Mr. D Naidoo treated me like his own sister and Sr. Pillay was so caring and patient with me. If God had given us the right to worship mankind, I would worship Dr. Turino. He always gave me hope that I could recover and never gave up on me.

I visited many doctors over the next 2 months. Finally, I ran out of money and was referred to Grey's. I was directed to Northdale Hospital in late February. I was the last patient of a very busy orthopedic clinic at Northdale. I met Dr. Turino who was shocked by my condition and admitted me immediately.

While in hospital the doctors performed many tests on me, including a lumbar puncture and biopsy of my hip. April, I had a hip MRI. I was hospitalized for the entire month of March and discharged on the second week of April. I was readmitted in July for a total hip replacement. After my operation I was sent to High Care Unit. Within one week I was mobilizing with a walking frame, then finally with crutches. I was discharged on 29 July

under any circumstance and to never undermine state hospitals.

Story supplied by ; Thembeke Ngubane (Patient)

INFO-DESK

We would like to thank the staff for attending the Statistics training on the 09/09/08 and hope that we as staff members are going to improve in the quality of data that we are collecting from various departments.

So far we have collected such relevant data for every individual or the public to be kept updated. I have attached the Information Cycle, to show out the flow of importance of the statistics as well as the Characteristics of Good Data Quality. I hope that our employees have gained a lot from our training.

Thank you
Information Management

Characteristics Of Good Data Quality

Data, in order to be useful, should be:

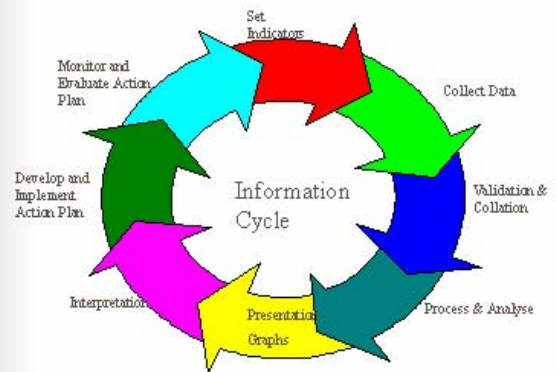

- ❖ Available 9/10/2008 on time fix dates for reporting
- Available at all levels who reports to whom - feedback mechanisms
- Reliable & accurate check that all data is correct, complete & consistent
- Comprehensive collected from all possible data sources
- Comparable same numerator & denominator definition used by all
- Correct numbers reflect what actually occurred
- Complete no gaps/ required data elements to be recorded
- Consistency values are in the same range e.g. useable beds
- Accessibility all necessary data are available and accessible when needed for patient care as well as for reporting purposes to various levels
- Legibility all data written, recorded or printed should be readable
- Timeliness data should be recorded as an event occurs

IMPORTANCES OF STATISTICS

- ❖ Planning of short term and long term goals
- ❖ Budget allocation purposes
- ❖ Enables to be proactive
- ❖ For good decision making(reliable, consistency)
- ❖ To measure mortality and morbidity
- ❖ To measure population catchments
- ❖ For administration purposes
- ❖ For epidemiological purposes
- ❖ For strategic, operational planning
- ❖ To utilize resources efficiently and effectively
- ❖ Provides an accurate picture of hospital functioning
- ❖ Facilities: good decision- making appropriate planning, ongoing monitoring and evaluation
- ❖ Utilization of the facility - by the community that it serve
- ❖ To provisioning of services impartially, fairly
- ❖ The promotion and maintenance of high standard of professional ethics
- ❖ Aimed at improving the openness and transparency within the institution and to make sure that decisions taken at all levels are bases on sound, relevant appropriate and valid information provided from the various sections of the institution
- ❖ Rendering an accountable , transparent, and development – oriented public service.

9/10/2008

Information Cycle

E A P PRACTICE/ EZAKWA EAP

There are many things in life that hurt us, aren't there? **AND THE WORST HURTS COME FROM PEOPLE WE LOVE.**

And sometimes you feel so bad, or have been hurt so often, that you turn **cold inside**. You stop feeling, because it hurts too much when you allow yourself to care. **AND THAT'S THE WORST HURT OF ALL.**

The most destructive thing that can happen to a person is for him to go into a **shell**, to become so embittered that he is afraid to LOVE, unwilling to be vulnerable: **CLOSED**. Yet it happens to so many of us.

Allow us to help you in the following.

- Learning to cope with falseness and indifference.
- Living with people who mistreat us and reject us.

If you've ever been hurt (and who hasn't?) you may well be carrying

with you, still the hatred and bitterness. Even after years you may still be unable to forgive. **DID YOU EVER THINK WHAT THIS MEANS TO YOU?**

'YOU ARE UNABLE TO FREE YOURSELF OF POISON INSIDE YOU'. And guess who is in trouble here? **YOU.....**

Remember this: *Pain tends to blind us. Pain makes it difficult for us to think clearly about situations which would be obvious to us were they happening to someone else.*

Visiting the EAP office will help you to:

- ❖ Stop wasting time in self pity.
- ❖ Stop allowing bitterness to distort your priorities.
- ❖ To confess the above mentioned facts to yourself and set you on the road to healing.

Zanele Khanyile : EAP PRACTITIONER

NEWLY EMPLOYED STAFF MEMBERS

Here are our New staff members employed from June till to date, Ladies and Gentlemen we welcome you zizweni nisekhaya.

PR DESK/ EZIKA SOMLOMO

Greetings to all of you this spring. I would like to thank the Northdale Hospital staff for welcoming me with open arms. I am proud to be part of this hospital and hope to learn and gain much experience for my future. Special thanks to my supervisor Mr. V Zulu for giving me this opportunity. I know most of people think that our field is easy but believe me it's **"A VERY HOT SEAT."**

Ngithanda ukubonga umdali for giving me one more time to live and serve his people, Ngamukele ngezandla ezithokomele u Miss. Noxolo Shoba.

I hope that the year that I've served here at Northdale Hospital I've made a difference in somebody's life and I've contributed positively towards the goals of this institution.

Thank you to all the staff members who hAVE contributed positively in making this office to function well, also a big thank you to Mr. S. Mkhize and Ms. Zama Mweli who were my hands for the past 6months GOOD LUCK for your Exams.

Lastly its summer time lets just smile, serve and enjoy life at work— Vusie (PRO)

NUTRI- FOCUS

For years, this Department has been run by Only one Dietician (Risha Maharaj). But this year two members have been introduced (Zarina Rawat and Sindi Thungo). Izinto azikaze zihambe kahle kangaka!!! Ngenyanga kantulikazi e-ARV clinic i-demonstration vegetable garden eyenziwe ngama-car tyres yaqalwa futhi yaphothulwa ngosuku olulodwa. Kwathi ekuqaleni kuka August kwaba yi-breastfeeding week. LeDepartment izimisele to participate kuma-events wonke amayelana nenutrition. Kanti futhi nokubakhona kwama-interns avela enyuvesi yaKwaZulu Natal kwenza izinto zibe right.

Ngabeufuna ukuzibonela ngo- C lengadi engajwayelekile? Khuphuka uze e-clinic yethu uzozibonela. Lengadi yinhle kakhulu ngoba uma uyenze with a lot of tyres ayikwazi ukuyithola futhi uma uhamba nge-wheel chair ungakwazi ukuthi how to maintain your own ngoba izobe i-at your own desirable heights

PHARMACY DEPARTMENT SPRING PARTY

Looking at few team building events which have happened over the past years under new management in pharmacy department, this has built team spirit and respect of one another in our pharmacy personnel. This has become a norm, and a year does not pass without a team building for pharmacy staff. This team spirit was displayed in our spring day on the 6th September 2008.

This idea just came up from nowhere, and Mr. Habib Mohamed suggested we (Pharmacy Personnel) have game in our hospital grounds welcoming spring/ summer. You can see how one mans' idea can influence a team of 36 members. Thank God this was for a good reason and everybody was very excited about the event. Everything went very well as it was well organized, kwakusindwe ngobethole. The storm has passed which hit us very hard when we lost about six pharmacists for

high levels and better remuneration. But through team spirit we have overcome the situation, just look at those happy people.

I love these guys when is the TEAM BUILDING ?

LUTHANDO'S TEAM ! GUYS KUMELE NIJIME LOSING 1-0 IS THE SAME AS LOOSING NGO 30-0
