Immunization campaign

Children must be immunized early in life it is essential that infants , both girls and boys, get all recommended vaccines at the right time . Some vaccines require multiple doses for full protection . It is important for every child to complete the full number of these immunizations. To protect the child during and beyond the first year of life , the immunizations in the chart below are necessary. These are most effective when given at the ages specified, or as close to those ages as possible.

IMMUNIZATION SCHEDULES FOR INFANTS

Age at immunization

At birth

6-8 weeks

10-12 weeks

14-24 weeks

9 months

9-15 months

12-18 months

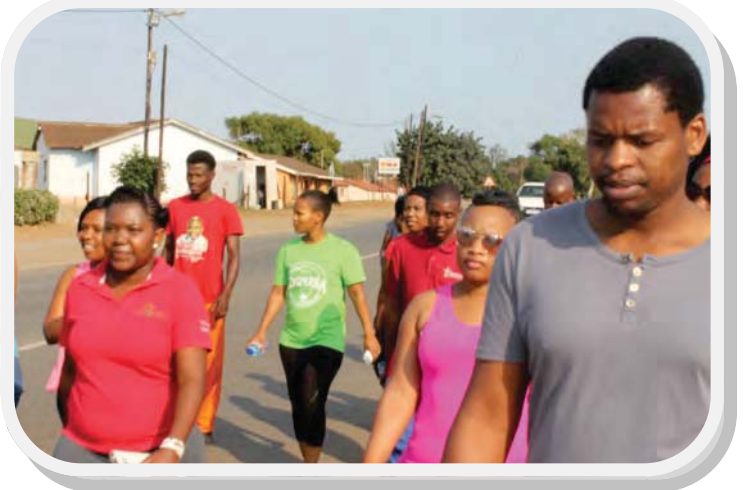

15 months -6 years

EVERY FAMILY AND COMMUNITY HAS TO RIGHT TO KNOW

1. Immunization is urgent, every child should complete the recommended series of immunizations.
2. Immunization protect against several dangerous diseases.
3. It is safe to immunize a child who has a minor illness or a disability or is mal-nourished.
4. All pregnant women and their newborns need to be protected against tetanus.
5. A new syringe must be used for every person being immunized.
6. Disease can spread quickly when people are crowded together
7. The vaccination card of a child (or an adult) should be presented to the health worker before every immunization.

UMnyango Wezempilo. Departement van Gesondheid

World aids day is celebrated throughout the world, some remembered their loved ones who have pass on through this pandemic. another's support to those who are infected by Hiv and Aids. The most important thing about this day is to remind ourselves that we have the power to overcome the pain that Aids has brought into our lives and believe that love and support can overcome this no matter what. We also need to love those who have be infected, support them in every step of the way, Encourage them to look after themselves give them strength in times of their weakness most of all we shouldn't judge them.

Aids has left many orphans, widows and grandmothers to look after their grandchildren , we as the country we need to come together and fight for free Aids generation. We can have that if we educate our children, be true to them as our elderly people would say "INDLELA IBUZWA KWABAPHAMBILI" especially for our daughters and Sisters (INZALA BANTU) women must know their worth, self-love is most important value one can have and no one can take that away from you , also know that education is the key, have dreams work hard for your dreams to come true, believe in yourself that you can achieve anything in life if you put your mind into it, never be afraid to speak out.

Care and concern. It is being worn by increasing numbers of people around the world to demonstrate their care and concern about HIV and AIDS – for those who are living with HIV, for those who are ill, for those who have died and for those who care for and support people who are directly affected.

Hope. The red ribbon is intended to be a symbol of hope – that the search for a vaccine and cure to halt the suffering is successful and the quality of life improves for those living with the virus.

Support. The red ribbon offers symbolic support for those living with HIV, for the continuing education of those not infected, for maximum efforts to find effective treatments, cures or vaccines, and for those who have lost friends, family members or loved ones to AIDS.

WORLD'S AIDS DAY EVENT

N.W MNGOMEZULU (OM), P.S XABA (SCHOOL HEALTH)
SISTER NTULI (COMMUNITY OUTREACH)

Mrs. N. Dladla (PHC SPECIALIST DISTRICT
HEALTH) was guest speaker of the day

THE MESSAGE OF THE DAY WAS CLEAR TO EVERYONE WHO WAS ATTENDING THE EVENT. ALL THE SPEAKERS WAS ON THE SAME TRACK, "NO ONE CAN LEAD OUR LIVES FOR US. WE ARE RESPONSIBLE FOR OUR ACTIONS. SO PEOPLE – ESPECIALLY THE YOUNGER GENERATION---NEED TO BE VERY CAREFUL ESPECIALLY WHERE SAFE SEX IS CONCERNED." THAT WAS THE MESSAGE OF THE DAY.

MESAGIES OF SUPPORT

AIDS IS NO LONGER A DEATH

WE NEED TO BAND TOGETHER AS A UNIT EVERY DAY, ESPECIALLY TO CONQUER THE STRENGTH OF THE AIDS VIRUS.

"EVERY MINUTE OF EVERY DAY, A CHILD UNDER 15 IS INFECTED WITH HIV - THE OVERWHELMING MAJORITY OF CHILDREN UNDER 15 WHO ARE HIV-POSITIVE GET INFECTED THROUGH THEIR MOTHERS AT BIRTH. WITHOUT TREATMENT, HALF OF THESE CHILDREN DIE BEFORE THEY REACH THEIR SECOND BIRTHDAY."

2015 YEAR END PRAYER

FROM PRO'S DESK

As Public Relations Office, we would like to pass our gratitude's to all internal and external stakeholders , Nseleni CHC EXCO, Staff Members, Clinics, outreach teams, administration, Security Team, Cleaning Team for their Support to our Office throughout the year 2015.

Mr. V.N Khuzwayo

It was a great year indeed for our office because of you. We humble ourselves as we agreed that each journey has its ups and downs but we also like to apologies to all those who we have step our fit on their toes, it was nothing personal but it was the pressure for that particular moment.

We also like to thank the editorial team for our articles and newsletters, you are the best team we've ever worked with.

As you celebrate and starting year 2016, may your heart be filled with joy and peace. May these year blessings linger in your home and stay with you throughout the year.

Hope year 2016 will be warm and sweet as a cup of hot cocoa and filled with more granted wishes than you can count till we end it. May God bless you all and stay blessed.
