The hospital planning team called MDT, was one of the amazing team which comprises of different departments within the hospital that were responsible for this ceremony.

The ceremony was first launch on the 25th November 2021, The idea behind the launch was to mobilize staff members particularly males. During this day CEO Mr GBCTE Khawula

led the march which started from the main gate to the hospital.

The CEO, lead his very own Executive Members to officially launch this ceremony.

In his address the CEO, Mr Khawula emphasized the role that the male figure can take in the society and even in the household.

Mr Khawula, also based his comments in the increasing numbers of the abuse that are being shown in the media and he alluded to the fact that in most instances male are perpetrators and in most cases they are implicated and it seem to be those that are relatives to those affected by the abuse. He mentioned that Prince Mshiyeni Memorial Hospital, provide services to those affected by the sexual abuse or otherwise, and such services are done at the department called Thuthuzela Care Centre (TCC).

# WORLD AIDS DAY

PMMH CELEBRATED WORLD AIDS DAY IN STYLE !!

**W**orld Aids Day, was one of the major activities that the hospital ensuring it is really take part. The main drivers of this program is Dr S Ntshanga, Matron R Abboo and Sister P Gxabu.

The theme for 2021 in World Aids Day was “ End inequalities End AIDS” Dr Nstshanga in her speech mentioned that we are facing a double –pandemic that demands our urgent attention.

She also mentioned that the hospital is working very hard to trace even those who are defaulters working with our CCG’s as the champions to trace defaulters of TB & HIV / Aids.

Dr Ntshanga emphasis that the hospital management is aware of the lockdown that took place in the previous months, which resulted in many people not able to collecting their medication on time as people feared that they also contract Covid-19 she then encourage people to come and do HIV tests and also TB testing and screening of Covid-19. Again she mentioned that most of the
