

RIETVLEI HOSPITAL A “MOTHER AND BABY FRIENDLY HOSPITAL”

Rietvlei Hospital achieved 100% in their recent “Mother & Baby Friendly Hospital Initiative” (MBFI) assessment – CONGRATULATIONS RVH

MBFI is an initiative of the WHO and UNICEF which spans globally and aims to give every baby the best start in life by supporting breastfeeding as the norm. This initiative aims to reduce infant and child mortality and it is for this reason Rietvlei Hospital prides themselves in obtaining such an achievement for the very first time. Hard work and determination has proved successful, and the team at Rietvlei are eager to keep up their high standards.

Management of Rietvlei Hospital would like to thank the coordinators of this project as they acknowledge “Practical Teamwork, focus to one Vision and a lot of Dedication.”

Rietvlei Hospital now has International Recognition as a “Mother and Baby Friendly Hospital”.
