“Mental Health Matters!”

Pharmacy Month is an annual Initiative by the South African Pharmacy Council and it runs nationally from 1 September 2019 to 30 September 2019. The main Week for Activities at Sundumbili CHC was run from 23rd September 2019 to the 27th September 2019. The Pharmacy team went to great effort to raise funds by way of raffles and cash contributions from the Pharmacists themselves, as well as donations from community businesses and good Samaritans. This was done such that we could give back to the community we serve, by the provision of meals, cool drinks, various prizes, jumping castle for the children, food hampers, party packs and stationery packs for the children.

The theme was: ***Mental Illness can be treated: Ask your Pharmacist for advice.***

Sundumbili CHC Pharmacy team came up with the catch phrase: ***Mental Health Matters!***

The message of “Mental Health Matters” was promoted passionately by the Pharmacy team throughout the month by way of various Patient and Healthcare worker interactions. This was done by way of talks, question and answer sessions and prizes for patients in the various busy CHC waiting areas.

The 65 residents and 5 care givers were spoiled by way of hot dogs, soft meals, cool drink, mash and gravy, biscuits, cake, party packs with soft chips, sweets, marshmallows and lollipops for a day.

The Mental Health wellness event that was held at Sundumbili CHC Hall on Thursday was truly a day of fun, learning and excitement for our clients. It was an interactive Mental Health Matters Programme, packed with competitions, awesome prizes, food hampers and refreshments for the adult patients whilst they waited to be attended to by the Doctors and Nurses.

We also put up a jumping castle for the paediatric patients and children at the CHC, outside and spoiled the kids with party packs, stationery hampers and refreshments. Cupcakes and prizes were also distributed to various waiting areas at the CHC for patients who missed out on the main event.
