HOSPITAL MANAGEMENT PAGE

This term the Finance Manager, Mr. T.D. Ndaba is going to tell us about the Finance Management Section

Mr. T.D. Ndaba
Finance Manager

I am Mr. T.D. Ndaba, Finance Manager, Thulasizwe MDR/TB Hospital. Firstly I wish to start by thanking the Management and Thulasizwe staff for the warmth and welcome I received from them and also my appreciation from the Department for trusting me that I am capable to take the responsibilities of the Finance Manager post towards achieving the Mission and the objectives of the institution.

I was appointed on the 01 of September 2012 as the Finance Manager, I was also requested to act as Systems Manager since the institution did not have the Systems Manager. Finance section did not have the finance clerk (supervisor) and Finance service officer as well, all our payments were done at Ceza Hospital so that our service providers will continue to serve the institution without complaining. We appointed needed officials as mentioned above which was Ms. P.Z. Nkosi who left us in January this year on promotion to Fort Napier Hospital as well as Ms. S.P. Simelane who is still with us. I also like to take this opportunity to thank Ms. P.Z. Nkosi for such a great contribution she made as we took our section from the ground level to 100% as is today. I would like to welcome Ms. N.F. Gambushe our new Finance Clerk (supervisor) who joined us on the 16 May 2014. Fortunately our SCM is still up and running even though we have a shortage of personnel. I also wish to thank my colleagues for working tirelessly to ensure that nothing hinders the service delivery even if we are having a shortage of staff and for their valued contribution towards achieving the mission and vision of the Institution.

I also wish to thank the Nursing Manager, Nursing Personnel, Clinical Programme, Para-Medical and Admin (especially our HR component if HR was not there we would have not appointed officials that we have today) for such a wonderful cooperation we have with them. I also wish to thank our Acting CEO Dr O.E. Ngam for the support that he is giving us

I also wish to thank Mrs Eddie, Mr. I. Z. Ximba, and Mr. S.S. Buthelezi for their assistance and advice we have received, trainings provided to us, with these words thank you and you are making a great impact to us. I like to thank Ceza Hospital for assisting us in any assistance we needed.

I also wish to take this opportunity to welcome our new Systems Manager Ms. M.K. Hadebe and thank her for joining us as the institution as we are having a hope that we will work together as a team to achieve Hospital mission, vision, core values and strategic Objectives. I also like to thank Food service staff, Laundry services staff, General Orderlies staff, Maintenance staff, Mortuary staff, and transport sections for such a wonderful team work we had even though we had challenges of staff shortage but you worked tirelessly for understanding that we are here for the patient. I Thank You

Miss. M.K. Hadebe
Systems Manager

Ms. M.K. Hadebe started at Thulasizwe Hospital on the 14/07/2014 as Systems Manager from Itshelejuba Hospital working as Finance Service Officer. I would like to thank Thulasizwe Management for giving me this opportunity and for warm welcome, hopefully my stay will be fruitful. Thank you to Itshelejuba for the experience that you have given to me, special thanks to Finance, Systems, HR, Nursing Management, CEO and OSS. I will never forget Itshelejuba because Itshelejuba is my home

Happy moments,

Quiet moments,
Worship God.
Painful moments,
Trust God.

INFORMATION DAY CELEBRATION

Ms. N. Zulu (left), Ms. N.P. Ntuli (right, FIO) & Mrs. D.T. Memela (District Manager, center) was so pleased to see Thulasizwe Hospital having such a great improvement & receiving lot of awards

Zululand Health District hosted an event of Information Day at St. Francis Hospital, acknowledge the work done by institutional data management by issuing certificates and trophies. Institutions were divided into three categories since our workload is not the same i.e. big, medium and small hospitals. As Thulasizwe Hospital we came back with two certificates for best performance in data quality, timely submission and a trophy for overall best performance in small hospitals categories.

The theme of this day was “if it is not recorded it is not done” information is most important tool to measure the performance, serves as the proof that we are rendering the quality services to vulnerable people

From left: Mr. J.B. Thusi, Mrs. D.T. Memela, Dr. Wanda Mthembu, Mr. S.S. Buthelezi and Mr. Mthembu handing the award certificate to Ms. N.P. Ntuli (FIO).

Ms. N. Zulu, NP. Ntuli & Mr. SS Buthelezi

Information gives guidance when allocation budget and resources, in order to make informed decision you must have quality information so let us all own this information from top to lower level management because as FIO I really need support to improve the quality of data.

This is not collected just to decorate our notice boards with colorful graphs but it is there to be used not by the district, provincial or national offices only but it must also be used at an institutional level. Together we can do more and better

Message of the day!

If you are quick to take offence, then you'll be under the control of those who you find offensive. If you are easily angered, then your actions will be dictated by those who anger you.

If you are obsessed by what other people think, then you will be imprisoned by their thoughts. If you yearn for easy answers and quick solutions, you'll fall prey to people who offer you nothing but promises. If you find the truth too difficult to bear, you'll be enslaved to those who tell you what you want to hear.

When you have the courage to think for yourself, the strength to accept

what is, The commitment and discipline to make a difference, then you are free. You are truly free to live

with purpose, joy and fulfilment. Let your life be defined, not by reactions to what others do, Say, or think but rather your own unique vision.

Raise your eyes above the pettiness and follow the path of the greatness that is within you. "Life can give u a hundred reasons to cry, But u can give life a thousand reasons to smile."
