Department:
Health
PROVINCE OF KWAZULU-NATAL

the nursing services are the heartbeat of Primary Health Care” As part of the National Minister of Health, Dr. A Motsoaledi five year strategy for the Nursing profession, Inanda Community Health Centre recently held a White Uniform Launch for the Nurses on the 31st July 2013. Over the years the nursing profession has been dragged down to an embarrassing level of disrepute by various factors, this has had a negative impact on the morale of the Nurses and has tarnished the image and reputation of nurses in society. The department of Health has gone to great strides in trying to restore the good standing of the nursing profession. As a representative of the department in our community, Inanda also implemented this change by launching the wearing of the white uniform at the facility. On the day the entire nursing staff compliment took to the stage to say the Nurse’s Pledge as way of recommitting themselves to the Humanitarian service that they render to our community. The event took place at a local church and was braced by the presence of facility management and church leadership.
